

CONFERENCE OF EUROPEAN STATISTICIANS

For information

Third meeting of the 2007/2008 Bureau
Geneva, 12-13 February 2008

Item 15b of the Provisional
Agenda

**DATABASE OF INTERNATIONAL STATISTICAL ACTIVITIES
IN THE UNECE REGION (DISA/IP)
Year 2008**

Note prepared by the UNECE secretariat

INTRODUCTION

1. The Database of International Statistical Activities (previously called Integrated Presentation) is a compendium of **statistical work** carried out by international organizations. The UNECE Statistical Division has been compiling the information at the request of the Conference since 1991. Starting from 2002, it is available on the web in a database format.

CURRENT STATUS

2. **The 2008 issue of the Database will be made available online by 11 February 2008.** It can be consulted at: <http://unece.unog.ch/disa/>. Printed copies of the Database will be made available for all members of the Bureau in the meeting room.

3. The statistical activities are divided into five main subject areas: demographic and social statistics; economic statistics; environment and multi-domain statistics; methodology of data collection, processing, dissemination and analysis; and strategic and managerial issues of official statistics. These are further refined and categorised under 55 sub-headings according to a classification adopted by the Bureau in October 2005.

4. Over 30 international organizations (including city groups) were contacted to obtain contributions for 2008. The UNECE has received the inputs from thirty three of them. Three more agencies have responded compared to last year. The only remaining organization which has not yet replied is the International Energy Agency (they have promised to send their contribution by 13.02.2008). The information received from the contributing organizations has been collated, classified and checked for consistency.

ANNEX

List of organizations and groups whose information for 2008 is included in the UNECE Database
of International Statistical Activities
(status of 4 February 2008)
