

# **UNECE Clearing House of Migration Statistics**

**Data availability based on latest collection**

Malgorzata Cwiek  
UNECE Statistical Division

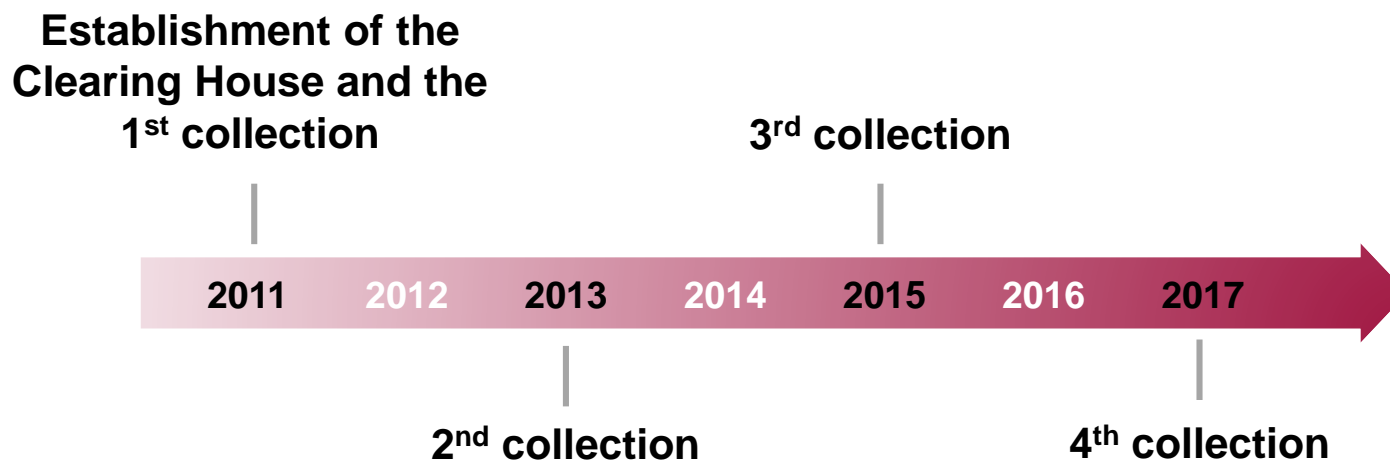

**Workshop on Migration Statistics**  
Geneva, 1-2 November 2017

# Background

**Clearing House of Migration Statistics** maintained by UNECE to facilitate data sharing is a set of standard tables on stocks and flows for bilateral exchange among countries

# Benefits of data exchange

- ✓ Provides information missing from regular national data collection systems (e.g. number of citizens living abroad)
- ✓ Provides information about the characteristics and conditions of citizens living abroad
- ✓ Allows for comparing data on the flow of migrants between immigration data of the receiving country and emigration data of the origin country

# Current status

## Completed

- **Data submission**
- **Data checking**
- **Additional clarification requests**

## Ongoing

- **Update of the on-line database**

## Upcoming

- **Notification about a completed update from UNECE**

# Content of the collected data

## About UNECE Statistical Division

We focus on raising UNECE countries' capacity in official statistics by helping national statistical offices and other stakeholders to coordinate their work and fill statistical gaps. Our work aims to address the increasing demand for high quality and comparable data among countries.

By bringing together [experts](#) from across the statistical community, we look for common efficiencies and innovative ways to tackle persistent and emerging challenges in official statistics.
