

National Statistics Committee of the Kyrgyz Republic

Use of administrative data in compiling migration statistics in Kyrgyzstan

**Taipova Tamara,
chief specialist
the demographic statistics department**

Geneva, 27-29 October 2020.

Sources of data on population migration

- Current accounting (administrative data of ministries and agencies);
- General population censuses;
- Sample population surveys;
- Economic registration of rural population;
- Population register (in perspective).

Administrative data sources on population migration

- Enterprise data on the employment of foreign citizens;
- Data on the number of international students enrolled;
- Electronic Database of the State Registration Service under the Government of the Kyrgyz Republic (SRS under the GKR), obtained upon registration and deregistration of the population for permanent residence (from 2017 instead of statistical coupons in paper format);
- Data on the absent permanent population in rural areas provided by local governments;
- Data on the arrival (departure) of persons through the checkpoints of the state border;
- Refugee data.

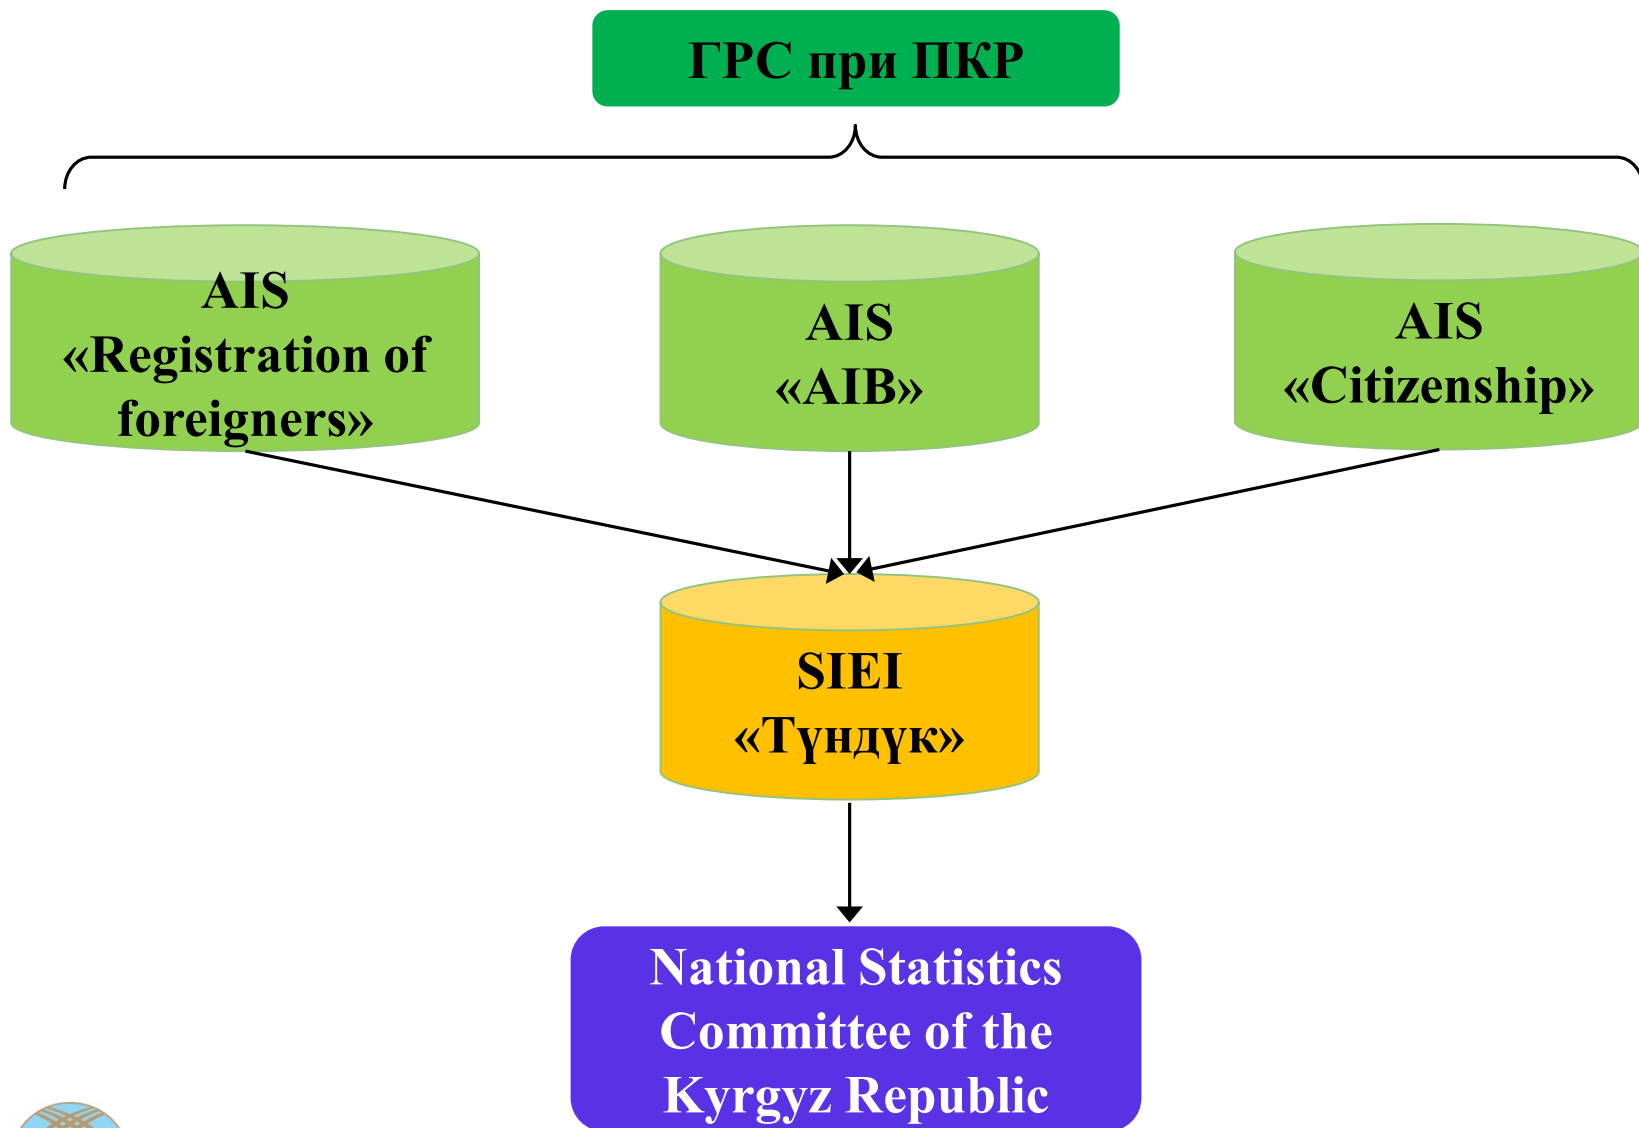

The concept of digital transformation in the Kyrgyz Republic

- In 2018. the National Development Strategy of the Kyrgyz Republic for 2018-2040 was adopted. The widespread introduction of information technologies in production and management should become a priority of the country's development policy.
- The concept of digital transformation "Digital Kyrgyzstan" 2019-2023 is one of the components of the implementation of the National Development Strategy, defines the structure, management system and the basis of the country's digitalization process. The task is to provide quality state and municipal services to citizens.
- The system of interdepartmental electronic interaction "Tunduk" (SIEI) was introduced for the exchange of data in electronic form in order to reduce bureaucracy, accelerate the process of interaction between government agencies. NSC is one of the participants of the SMEV "Tunduk".
- In accordance with the Agreement on information interaction between the SRS and the NSC, primary information is provided from the automated information systems of the SRS: Citizenship, Address and Information Bureau (AIB), Registration of Foreigners, Civil Registry Office.

Raw migration data movement from DB SRS at KRG

AIS «Sanarip aimak» as part of a digital concept

Passport number and series;
Date of issue;
Issuing authority.

AIS «REGISTRY OFFICE»

Birth registration;
Marriage registration;
Divorce registration;
Death registration.

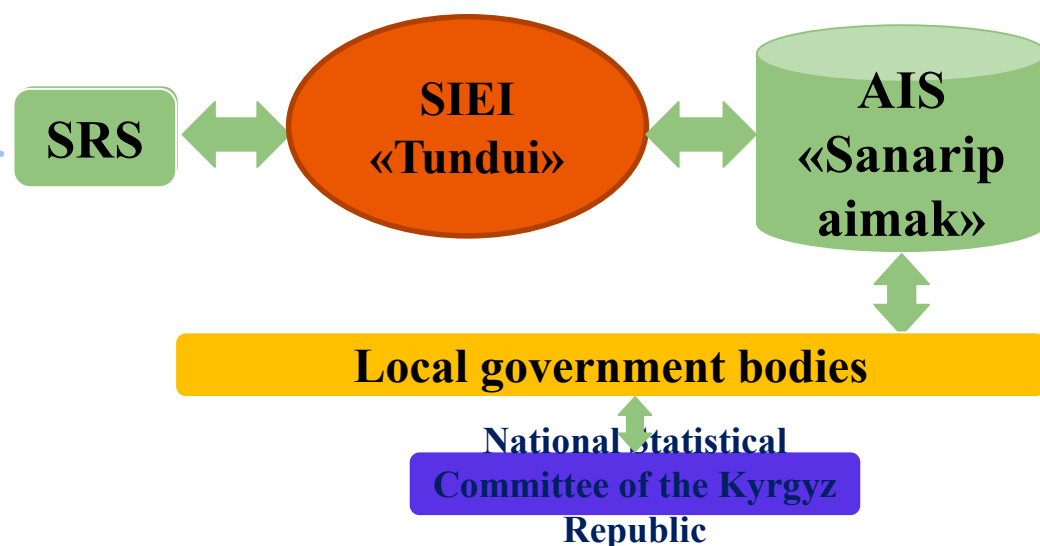

AIS «AIB»

Registration information
(registration address)

AIS «CITIZENSHIP»

Information on renunciation
of citizenship (decree
number, decree date)

Information from the database of the SRS in the
AIS "Sanarip aimak"

Memorandum of Cooperation between the State Agency for Local Self-Government and Interethnic Relations under the GKR (SALSGIR) and the National Statistical Committee of the Kyrgyz Republic (2019)

National Statistical Committee of the Kyrgyz Republic

Problems

- ❑ Poor quality and insufficient completeness of SRS data.
- ❑ Incompatibility of information systems at the technical and technological level due to the use of their departmental reference books by the SRS instead of state classifiers.
- ❑ Technical: flaw in SRS web services.

Data dissemination

- NSC website : www.stat.kg
- NSC publications : «Demographic Yearbook of the Kyrgyz Republic», «Women and men of the Kyrgyz Republic», «Social trends of the Kyrgyz Republic», «Statistical Yearbook of the Kyrgyz Republic», «Kyrgyzstan in numbers» and others.
- Official mobile app [StatKG](#).
- Providing data on population migration at the request of users.
