

SDG 5 and gender statistics

UN Population Fund
May 2018

UNFPA priority indicator on SDGs 5

#	Indicator	Tier	Custodian agency(ies)	Partner agency(ies)
1	5.2.1 Proportion of ever-partnered women and girls aged 15 years and older subjected to physical, sexual or psychological violence by a current or former intimate partner in the previous 12 months, by form of violence and by age	II	UNICEF, UN Women, UNFPA, WHO, UNODC	UN Population Division, UN Statistics Division
2	5.2.2 Proportion of women and girls aged 15 years and older subjected to sexual violence by persons other than an intimate partner in the previous 12 months, by age and place of occurrence	II	UNICEF, UN Women, UNFPA, WHO, UNODC	UN Population Division, UN Statistics Division
3	5.3.1 Proportion of women aged 20-24 years who were married or in a union before age 15 and before age 18	II	UNICEF	WHO, UNFPA, UN Women, UN Population Division
4	5.3.2 Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/ cutting, by age	II	UNICEF	UNFPA, WHO
5	5.6.1 Proportion of women aged 15-49 years who make their own informed decisions regarding sexual relations, contraceptive use and reproductive health care	II	UNFPA	UN Women, WHO
6	5.6.2 Number of countries with laws and regulations that guarantee <i>full and equal</i> access to women <i>and men</i> aged 15 years <i>and older</i> to sexual and reproductive health care, information and education	III	UNFPA	UN Women, WHO, UN Population Division

Roles & responsibilities of custodian & partner agencies

For Tier I and Tier II indicators, custodian agencies are responsible for compiling the data at the global level and for global reporting, while for Tier III indicators, custodian agencies are responsible for development of the methodology and eventual global level data compilation and reporting.

Partner agencies, together with the custodian agency, will play a key role in coordinating efforts on data collection, methodology development, and in providing technical support to national statistical systems for data generation and reporting, and ensuring increased adoption and compliance with internationally agreed standards.

Inter-Agency & Expert Group members for development of methodology for SDG indicators 5.6.1 & 5.6.2

Indicator 5.6.1 (Tier II)

Proportion of women aged 15-49 who make their own informed decisions regarding sexual relations, contraceptive use and reproductive health care.

(Re-classified to Tier II in Sept 2016)

- The indicator is calculated based on women's responses to three questions focused on women's reproductive rights:
 1. *Can you say no to your (husband/partner) if you do not want to have sexual intercourse?*
 2. *Would you say that using contraception is mainly your decision, mainly your (husband's/ partner's) decision, or did you both decide together?*
 3. *Who usually makes decisions about reproductive health care for yourself?*
- Currently data for Indicator 5.6.1 is derived from DHS.
- The data for 45 countries was included, for the first time, in the UNSD SDG database in 2017 and included in the 2017 SDG Report

Indicator 5.6.2 (Tier III)

Number of countries with laws and regulations that guarantee **full and equal** access to women **and men** aged 15 years **and older** to sexual and reproductive health care, information and education (refined in March 2017)

- Measures existence of laws and regulations; and not their implementation.
- Sexual and reproductive health care, information and education defined in accordance with the Programme of Action of ICPD & the Beijing Platform for Action.
- Assessing both *legal barriers* (restrictive laws & regulations) and *legal enablers* (positive laws & regulations)
- Will track, in particular, restrictions due to marital status, age, and requirement for third party authorization as cross-cutting aspects

Indicator 5.6.2 – proposed methodology

- Self-reporting survey by governments
- National Validation Committee: Government; UN Country teams; civil society
- To cover all countries, all regions
- Some components of survey already familiar to governments
