

Way forward to measure gender & trade

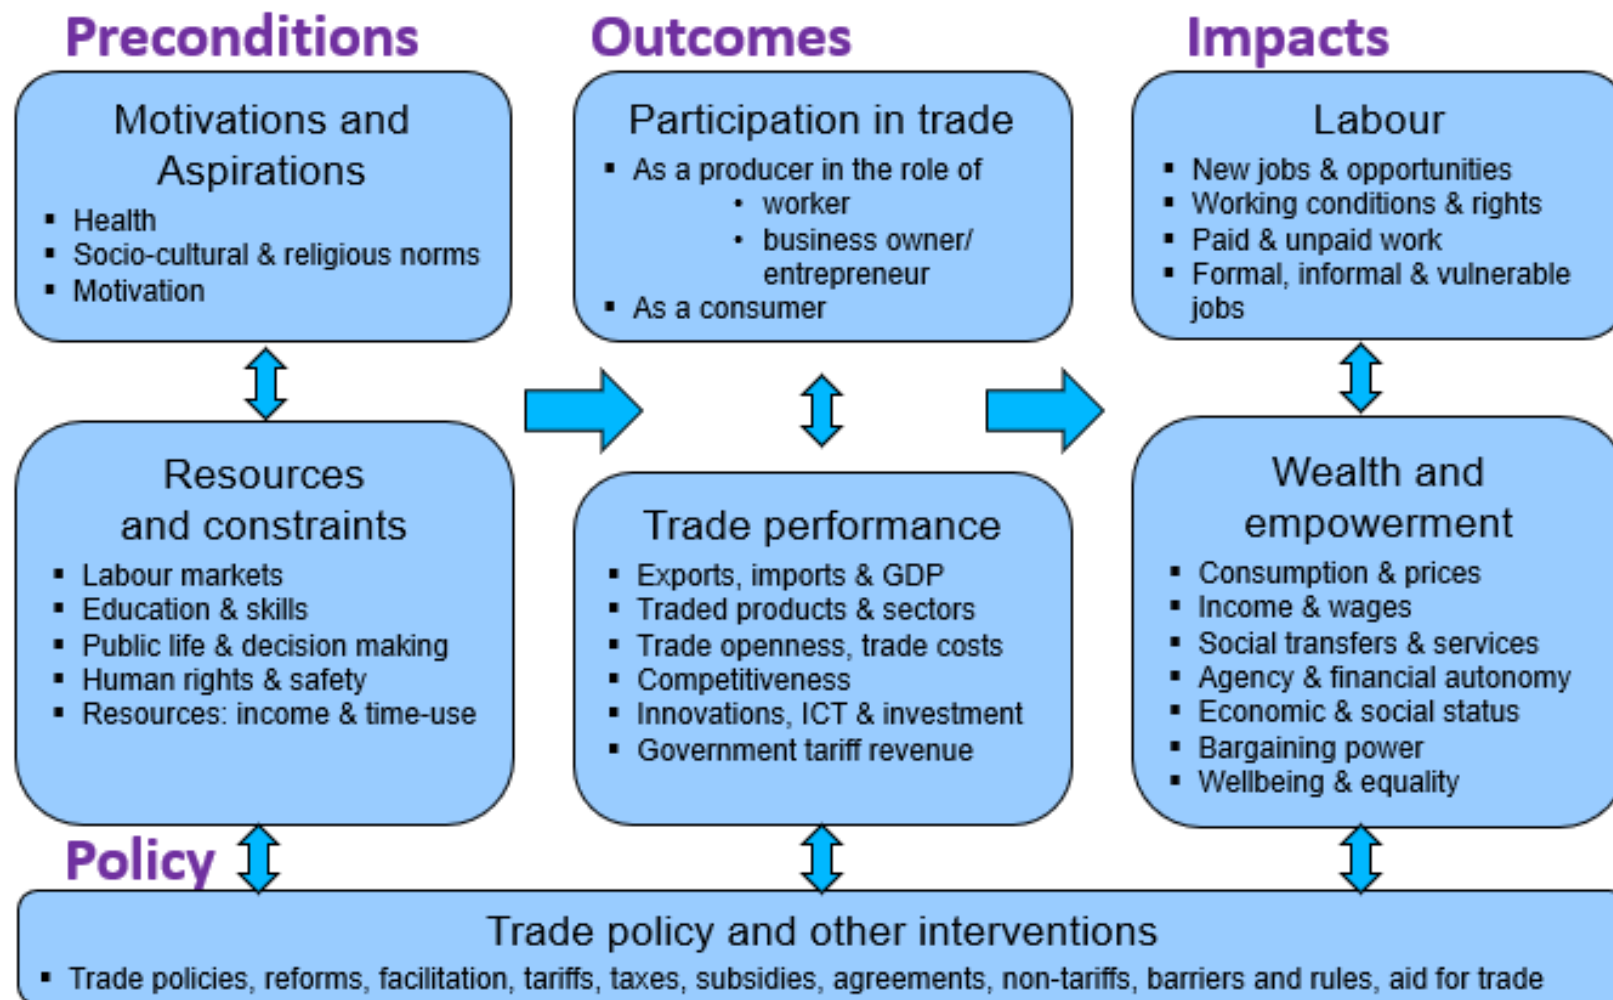

UNCTAD, Anu Peltola

Interactions of gender & trade are complex

Conceptual framework for measuring gender & trade

Source: UNCTAD

Programme on data and statistics for more gender - responsive trade policies, 2020 - 2023

- Pioneering activities to develop gender and trade statistics – building on work done to date
 - An online course on gender and trade
 - Dialogue between trade and statistics experts
 - From the conceptual framework to national context
- Find 2-3 pilot countries to review data availability and test measurement in the EECCA region
 - Advisory missions and a national workshop
 - Methodological and consultancy support
- Develop guidelines for the compilation of gender and trade statistics & share the results!
