

Developing a SDG Reporting Platform – UK perspective

Joanne Evans

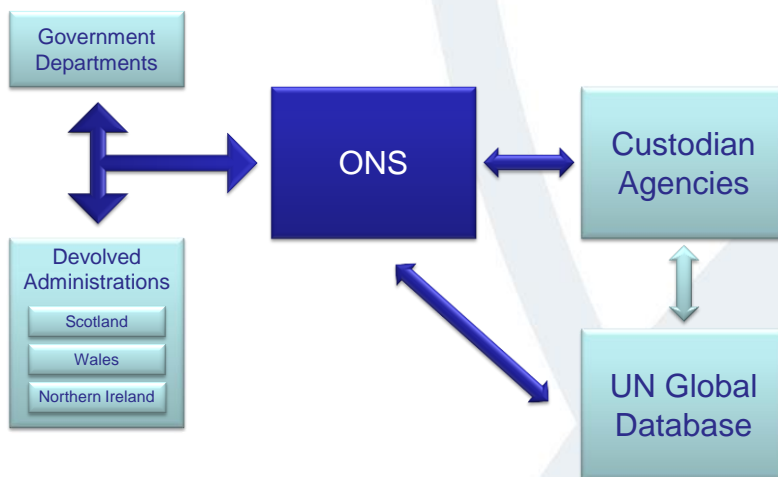

National Statistics in the UK

- Decentralised Government Statistical Service

- Office for National Statistics (ONS)
- Government Departments
- Devolved Administrations
 - Scotland
 - Wales
 - Northern Ireland

Proposed SDG Data Flow Model

SDG Reporting – where to start?

- SDG Team
- Data Science Campus
- Feasibility study
 - Short term – re-use USA platform
 - Longer term – move to ONS architecture

Benefits

- **Cost**
minimal software or hardware investment
- **Time**
quick to set up
- **Flexibility**
easy to share and to collaborate on development

Developer Skills Required

- Data providers and managers
- GitHub:
 - Basic web-development skills (html, css)
- Further platform development needs:
 - Javascript
 - Ruby

Next Steps

- Continued development collaboration with USA
- Work on helping other countries use the software
- Improved version available in a few months

Reporting Platform Model
