Implementation of New Agenda on Development

- Own strategies, plans and programs of countries on sustainable development are **determined by the countries on their own**. SDGs will act as a guide enabling the countries to bring their plans in line with their global commitments.
- Implementing the strategies on sustainable development elaborated by the countries and being within their national commitment will require an adoption of similar strategies on resources mobilization and financing.
- **Achieving 17 Goals and 169 targets** defined in new Agenda **will be followed up and reviewed using a set of global indicators**. This set of indicators has been developed by the Inter-Agency Expert Group on SDG Indicators

National Statistical Committee of the Kyrgyz Republic

3

Implementation of New Agenda on Development

- To follow up the goals and targets, the country Governments will develop **their own national indicators**.
- As part of High-Level Forums on Sustainable Development, **an annual study of achieved results and taking proper actions** will be arranged based on the SDG Progress Report.
- As provided by the Addis Ababa Agenda (outcome document of the Conference on Financing for Development), a system of follow-up and review of the means of SDG implementation will be established to ensure an efficient mobilization of financial resources to facilitate an implementation of new Agenda on sustainable development.
