

## Implementation of the SDG indicator framework

Translating global and regional initiatives on data and statistics into country level development plans and actions

### DA10 Statistics and Data

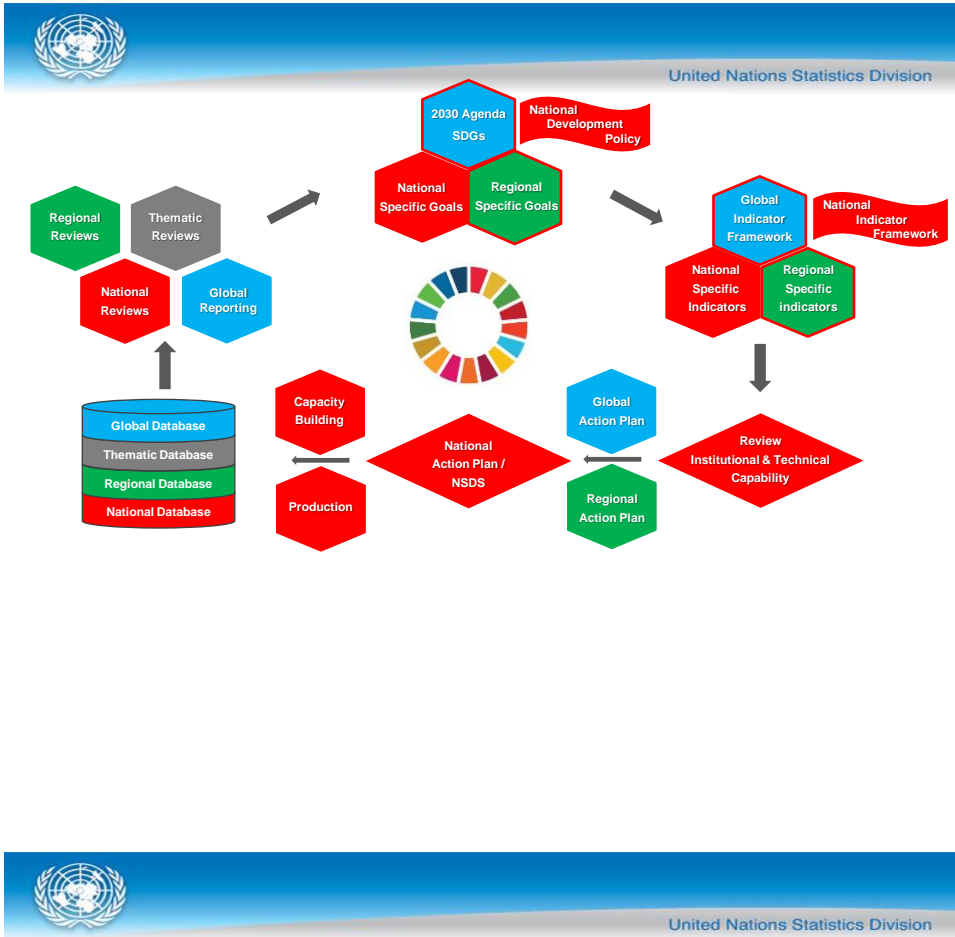

Workshop on Statistics for SDGs

12-13 April 2017, Geneva, Switzerland

## 2030 Agenda and SDG Indicators – Draft Resolution

- 2030 Agenda to be universal and transformative with goals and targets covering the 3 dimensions of sustainable development (SD)
- SDGs and targets to be followed up and reviewed using a set of global indicators complemented by indicators at the regional and national levels
- Country-led disaggregated indicators to be of high quality, accessible, timely and reliable
- Built on existing platforms and processes, while taking into consideration emerging methodologies, new technology and alternative data sources
- Official statistics to be the basis for the global indicator framework in full adherence with the UN Fundamental Principles of Official Statistics
- To intensify coordinated support for strengthening national statistical capacity
