Key national data sources for monitoring MDGs

- Public statistical surveys on social and demographic issues
- Continuous reading of SMEs
- Population and housing census
- Sample Household Budget Survey
- Labour Force Survey
- Demographic Health Survey
- Administrative data

Priority tasks

Organizational

- To integrate MDG indicators into Statistics Work Programme
- To coordinate inter-agency interaction
- To define MDG data flow processes in TajStat IMS (Information Management System)

Statistical

- To develop methodologies and methods to collect data for MDG indicators
- Data disaggregation (*by gender, age, race, ethnic background, migration status, disability, location, etc.*)
- To collect regional data for MDGs (*68 regions in Tajikistan*) and to carry out specific surveys

Action Plan

Statistical issues

- To expand statistical surveys, especially in social statistics
- To use efficiently administrative data
- To review Big Data uses

Organizational issues

- To set up Interagency Working Group for Nationalization of MDG indicators (done)
- To identify WEB portal (ArcGisServer. and SDMX) backend and frontend
- To put in place inter-agency interaction
- To prepare country report on SDG indicators (focusing on national and regional priorities)

SUPPORT FROM UN REGIONAL SYSTEM

Regional UN system facilitates the commitment of the country to SDG agenda through continuous collaboration with national authorities.

SDG advocacy and awareness raising information and initiatives;
Assistance in 'translating' global SDG targets into national targets;
Determination and dissemination of practical tools supporting achievement of SDGs;
Securing channels and platforms for sharing experience;
Support and services in capacity building in different domains that benefit from such support;
Ensuring that MDGs are based on standards, conventions, values and norms
Identifying synergies and developing cooperation with international organizations (i.e. OECD) and integration groups (i.e. EU)
None of MDGs is to be led by only one UN agency

Future Steps

Statistics Agency and UNDP to sign MoU

Strategy for Producing and Monitoring MDG Indicators, including metadata and MDG Communication Strategy, to be developed

Project proposal to be prepared for establishing Data Processing Centre (MDG Database)

National platform to be put in place for creating MDG Database and MDG Communication mechanism

DATA COLLECTION FOR SPECIFIC MDG INDICATORS

a) DEMOGRAPHIC HEALTH SURVEY (DHS 2017)

GOAL 2. ZERO HUNGER

		Gender		Total
		Male	Female	
2.2.1	Prevalence of stunting among children under 5 years of age	17.8	17.2	17.5
2.2.2	prevalence of malnutrition among children under 5 years of age	9.6	8.2	8.9

GOAL 3. GOOD HEALTH AND WELL BEING

		Gender		Total
		Male	Female	
3.2.1	Under-five mortality rate	40	26	33
3.2.2	Neonatal mortality rate	16	10	13

GOAL 7. AFFORDABLE AND CLEAN ENERGY

	Indicators	Location		Total
		Urban	Rural	
7.1.1	Proportion of population with access to electricity	99.2	99.3	99.3
7.1.2	Proportion of population with primary reliance on clean fuels and technology	97.0	75.2	80.5

b) CURRENT STATISTICS

		2016	2017
8.1.1	Annual growth rate of real GDP per capita	104.5	104.8
8.1.2	Annual growth rate of real GDP per employed person	106.8	106.0
9.2.1	Manufacturing value added as a proportion of GDP	9.7	10.0
10.4.1	Labour share of GDP, comprising wages and social protection transfers	9102.8	10147.0
