2020 SDG Actions.

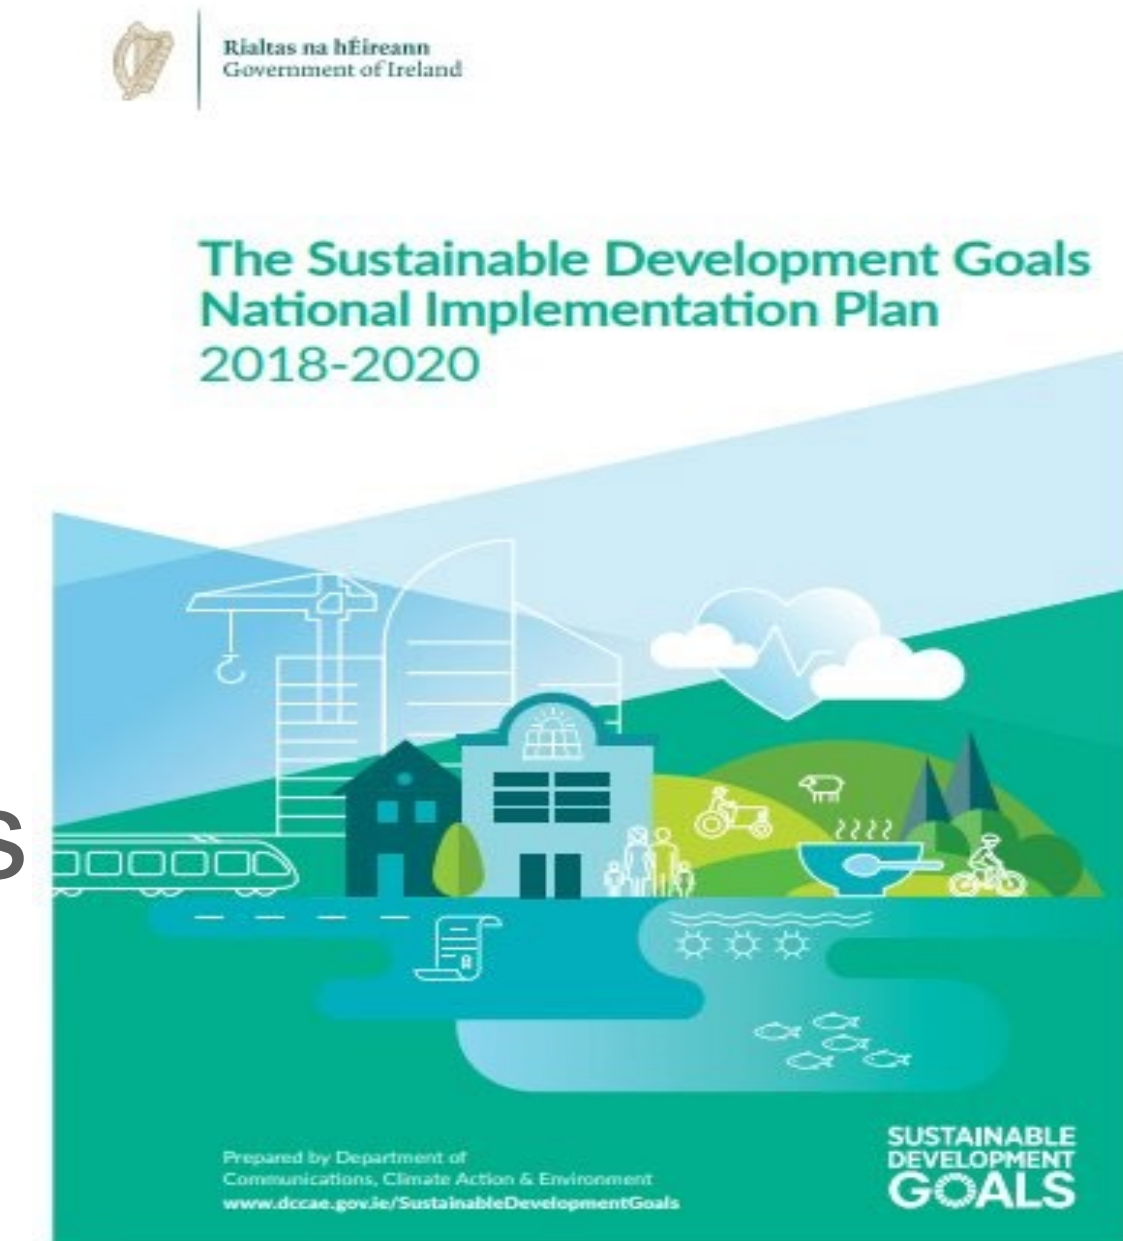

In September 2015, 193 UN Member States adopted the [2030 Agenda for Sustainable Development](#) ("*Transforming our World*"). The centre piece of the 2030 Agenda is the 17 Sustainable Development Goals (SDGs), with **169 targets**. The 17 SDGs reflect economic, social and environmental dimensions of sustainable development.

Government Policy – What is Ireland doing to Achieve the SDGs

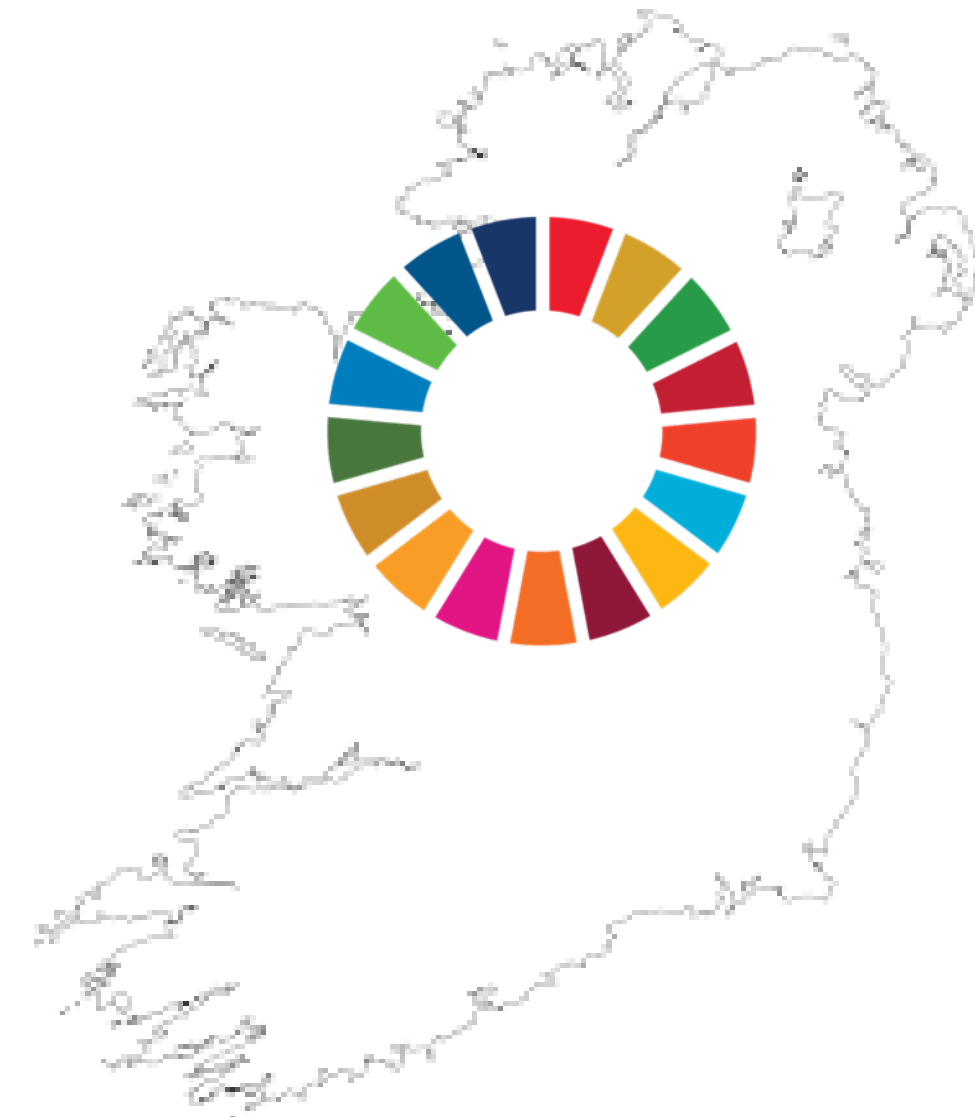

- Sustainable Development Goals National Implementation Plan 2018-2020, published April 2018.
- The Plan indicated a coordinated whole-of-Government approach to implement the SDGs, - set out in the SDG Policy Map, Annex II. Annex III contains a Table of Actions completed within lifetime of the Plan.
- Ireland presented our first Voluntary National Review on the SDGS at the UN in 2018.

SDG Stakeholder Engagement

- Forum established in June 2018. One of the goals of setting up the SDG Forum is to “get everyone in the room”. Significant outreach has been made to all sectors of society to try to ensure participation from all Stakeholders.
- Forum allows a unique opportunity for policy makers, civil society, business academia and other interested parties to come together on SDG related activities.
- CSR Forum
- Civil Society Engagement - Coalition 2030

Leaving No One Behind

- Government Policy to address leaving no one behind, which is a cross cutting issue but is highlighted in the following;
DEASP – National Action Plan for Social Inclusion
DHPLG – Rebuilding Ireland Action plan for Housing & Homelessness
And Internationally DFAT – A Better World
- In addition to traditional stakeholder engagement. Ireland has developed an SDG Online Platform through CSO/OSI/ESRI , www.irelandsdg.geohive.ie which is currently being used to collect, collate and report on publicly available SDG data using GSI systems. To date we have issued reports on progress on SDG1 &SDG2.
