

Main outcomes of the survey on SEEA implementation

(Coverage: Countries and International Organizations registered to the Seminar)

Michael Nagy / October 15th, 2015

Responses received

28 in total, representing:

- **22 Countries**
- **3 International Organizations**
- **1 Academia**

Survey questions (Countries, Academia)

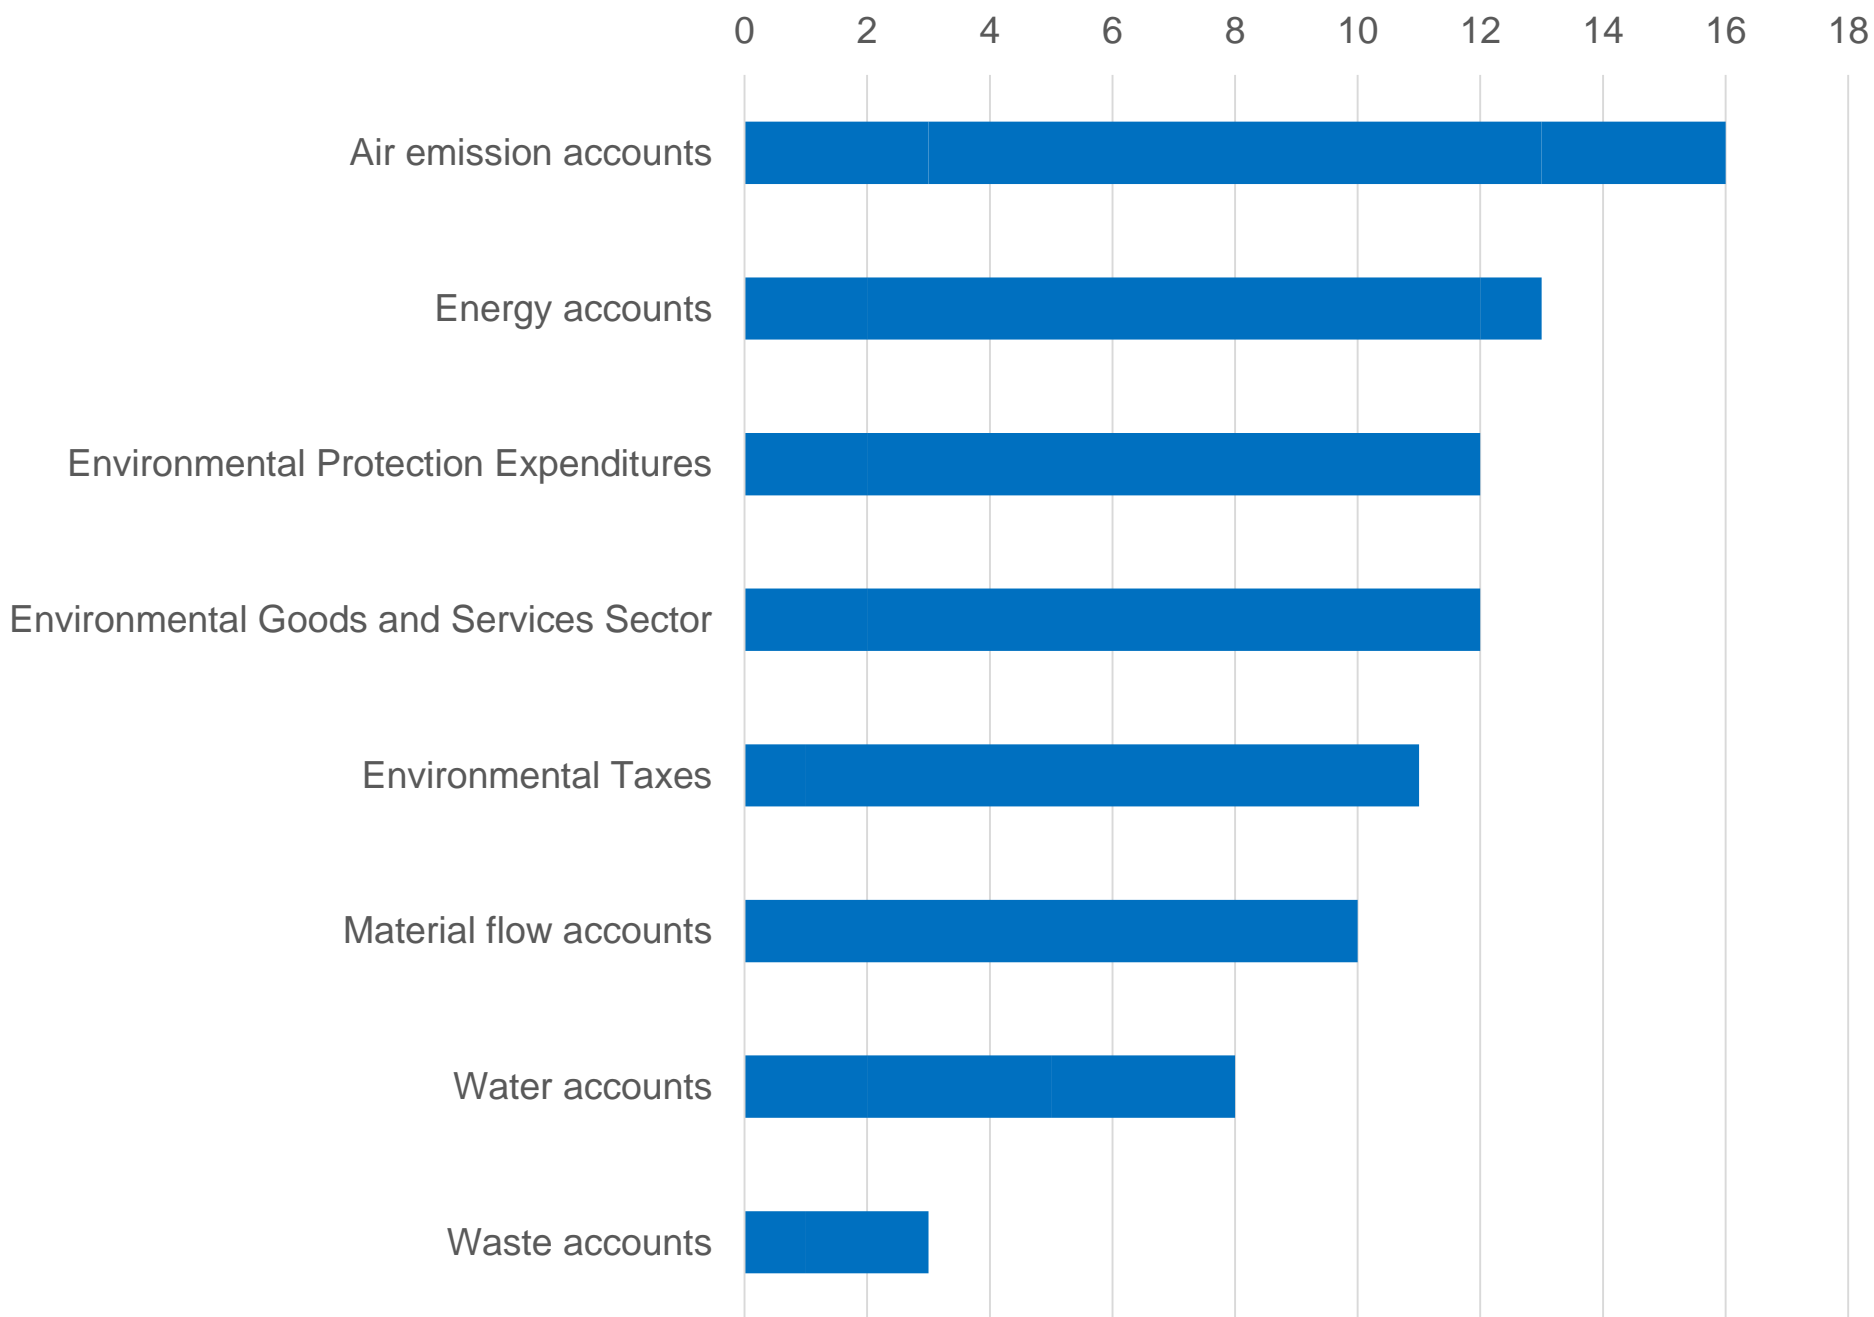

1. What are your national priorities in relation to the implementation of SEEA? / Каковы ваши приоритеты в отношении реализации СЭЭУ?
2. Are there any obstacles in the implementation of SEEA? If yes, please explain. / Есть ли какие-либо препятствия для реализации СЭЭУ? Если да, пожалуйста, объясните.
3. What could be the role of international organisations in regard to the SEEA implementation in the ECE region? / Какой может быть роль международных организаций в связи с реализацией СЭЭУ в регионе ЕЭК ООН?
4. What could be topics for future seminars to share experience and advance implementation? / Какими могут быть темы для будущих семинаров по обмену опытом и ускорению реализации?

Survey questions (International Organizations)

1. What are the SEEA implementation priorities from your institutional point of view?
2. Which SEEA-related activities do you plan 2016, 2017 and beyond?

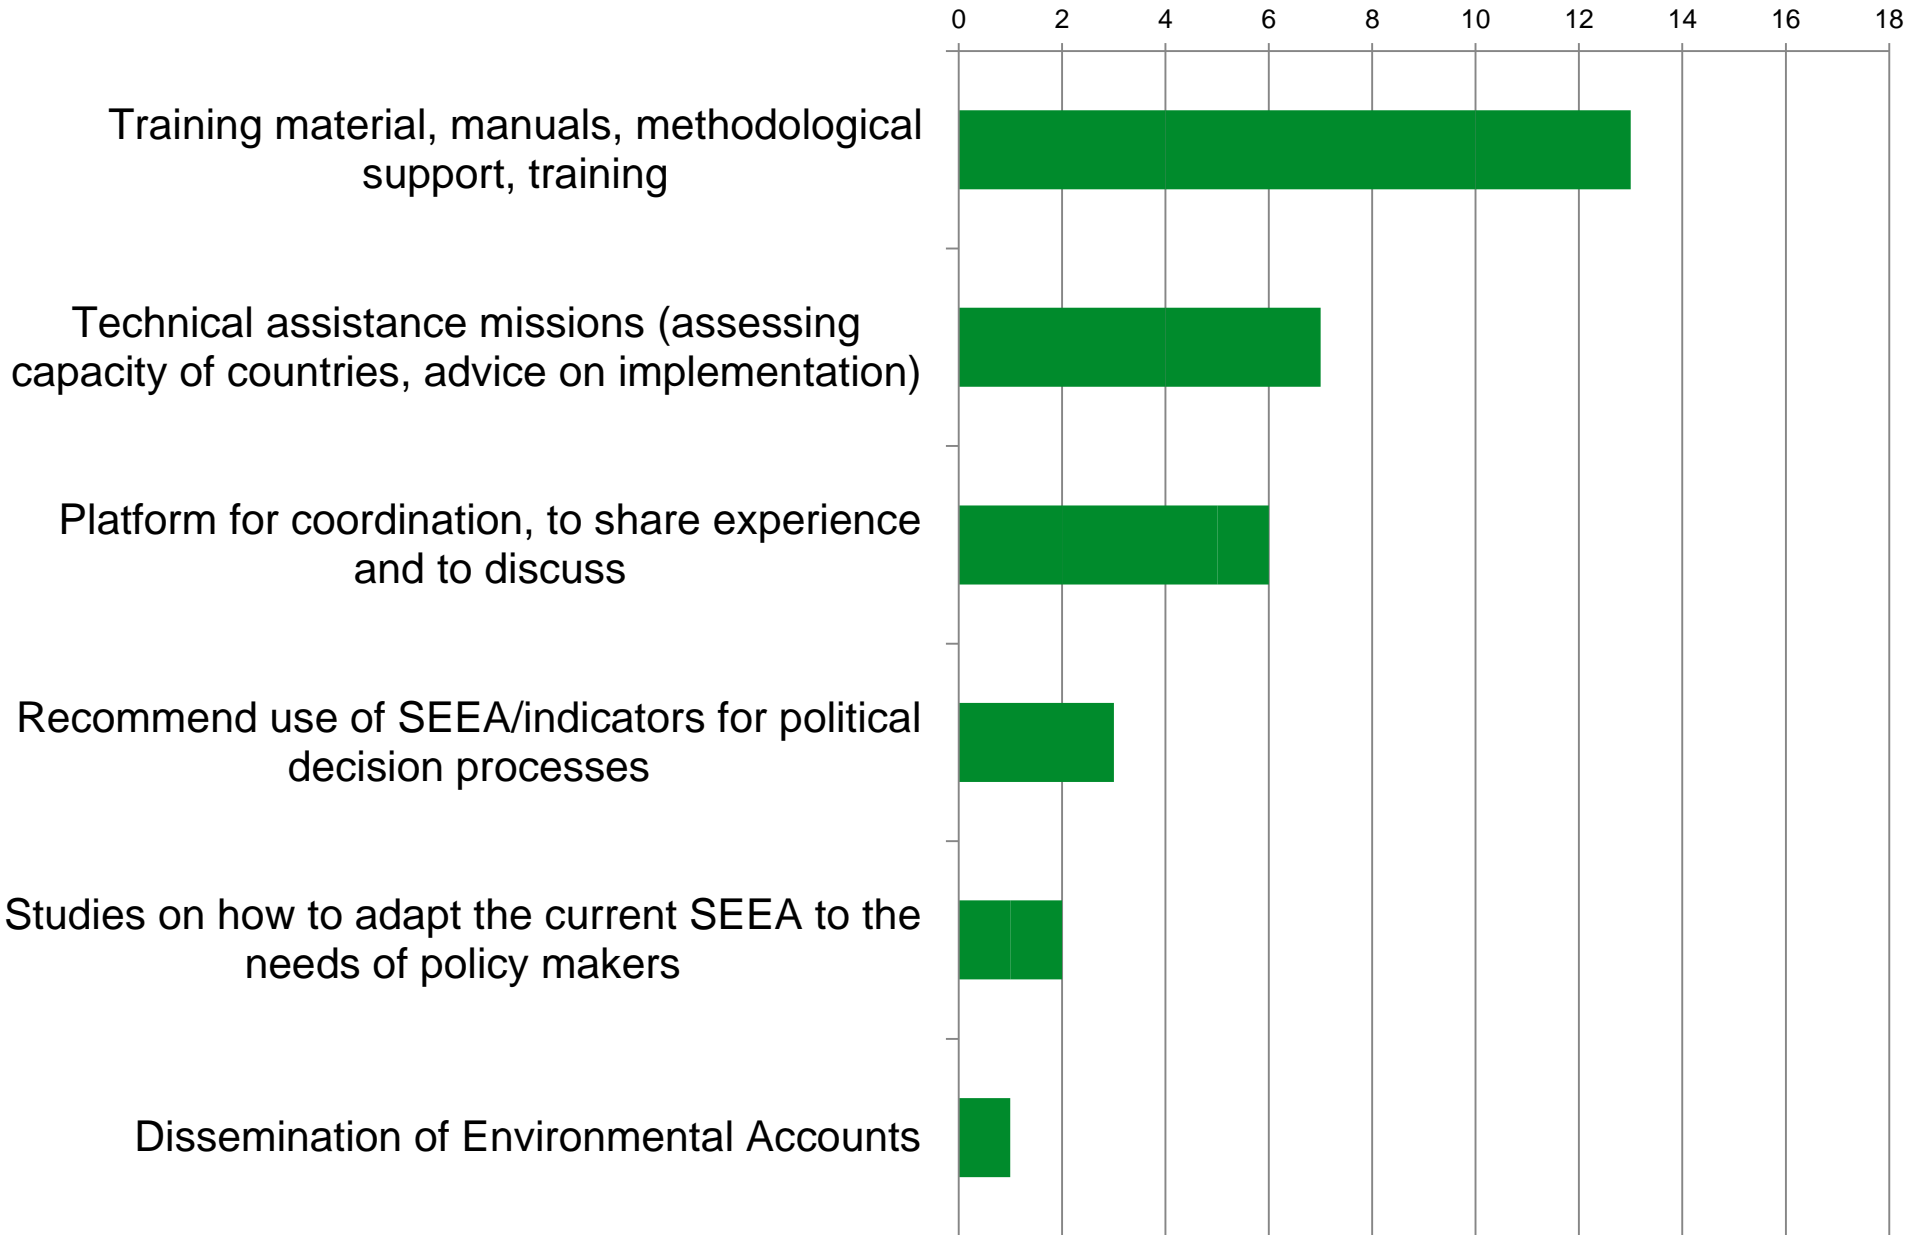

SEEA Implementation Priorities

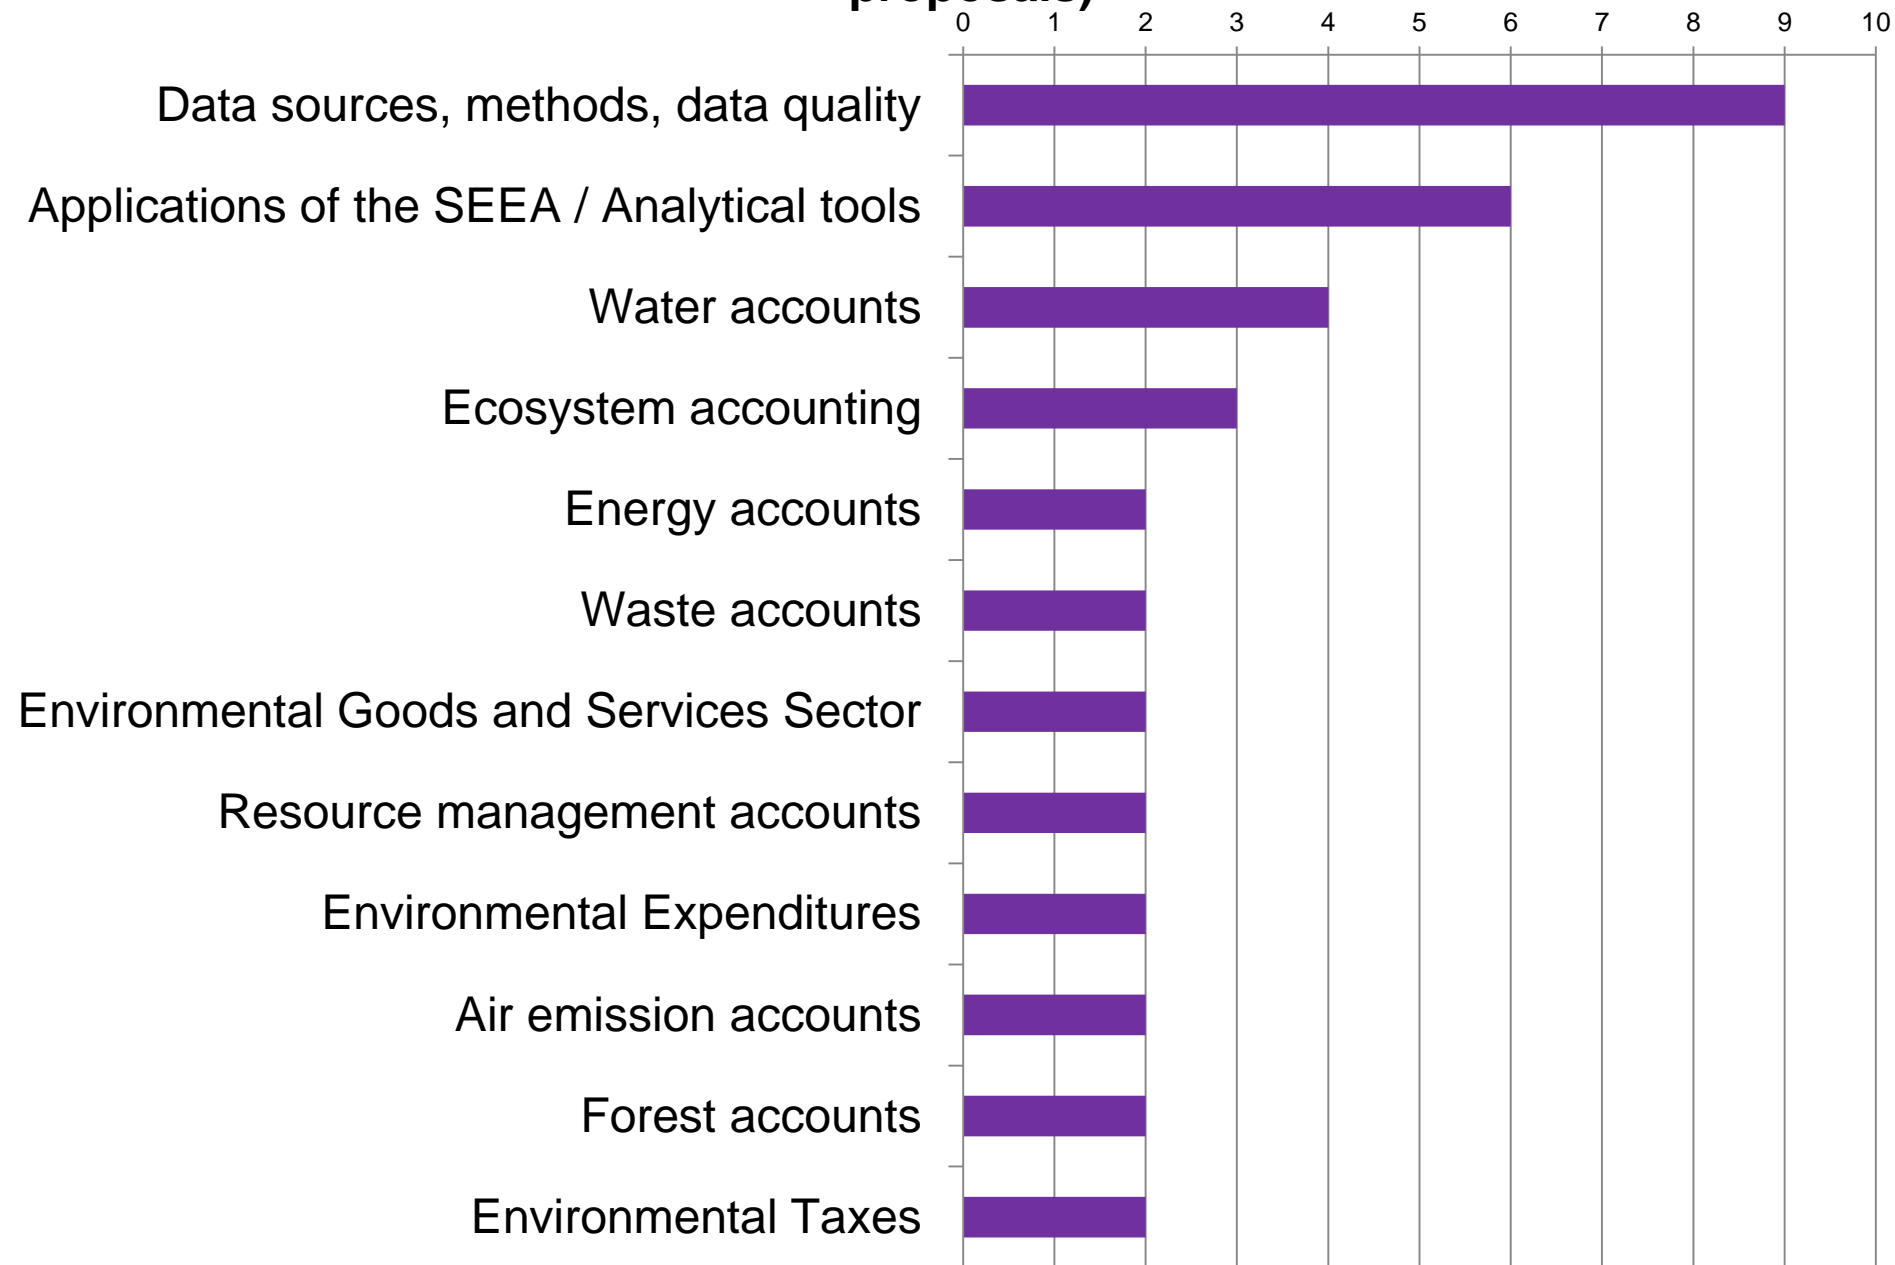

Main Obstacles in the Implementation of SEEA

Priority Actions proposed by countries to International Organizations

Topics for future Seminars (20 out of 22 countries made proposals)

International Organizations: Priorities

EUROSTAT:

- European Strategy for Environmental Accounts, namely:
 - Consolidate and promote the use of the first 3 modules with legal coverage
 - Prepare implementation of the next 3 modules with legal coverage
 - Improve use of accounts, including better timeliness
 - Develop infrastructure elements
 - Develop possible new areas
 - Link to SDGs
 - Consolidate SEEA as an international standard
 - Promote implementation in countries
 - Promote further methodological developments

UNDP:

- Deliver capacity building activities on SEEA and SEEA-EEA in ECIS countries

EUROSTAT:

- New EU modules on energy accounts, EGSS, EPEA
- Test ecosystem accounts
- Further develop methodologies and infrastructure e.g. raw material equivalents, footprints, environmentally-extended IO, integrated framework for monetary environmental accounts
- Improve the use of the accounts
- Drafting more handbooks and guidelines
- Provision of tools for countries e.g. IT tools for modelling
- Training, support measures, capacity building, etc.

UNDP:

- SEEA pilot module and training in Belarus
- SEEA-EEA pilot module and training in Kyrgyzstan (focus on forest)
- SEEA or SEEA-EEA in Tajikistan

Eurasian Economic Commission:

- Examine the situation in the countries regarding the implementation of SEEA
- Develop a plan for coordination of the implementation of the SEEA.

Thank you
