

## Exercise

Analyse the material flows for country A (see figure on next page):

- Fill the following table

	extraction	imports	exports
Biomass			
Fossil energy			
Metals ores			
Non-metallic minerals			
<b>Total</b>			

- Calculate for country A the following EW MFA indicators
  1. DMI (Direct Material Input)
  2. DMC (Direct Material Consumption)
  3. PBT (Physical Trade Balance)
  4. DPO (Domestic Processed Outputs)
  5. RP (Resource productivity)

## Additional info

- All flows are in million kg
- All activities on sea belong to country A
- GDP of country A is 5 billion euro
