

# Use of administrative data for production of SBR in Georgia

**GOGITA TODRADZE**

*Deputy Executive Director*

*National Statistics Office of Georgia - GEOSTAT*

*Expert Group Meeting on Business Registers  
Paris, France, 27-29 September, 2017*

# Data sources

## *External*

### Administrative Sources

NAPR

საჯარო  
რეესტრის  
ეროვნული სააგენტო

Tax Office

REVENUE  
SERVICE

**SBR**

## *Internal*

### Statistical Sources

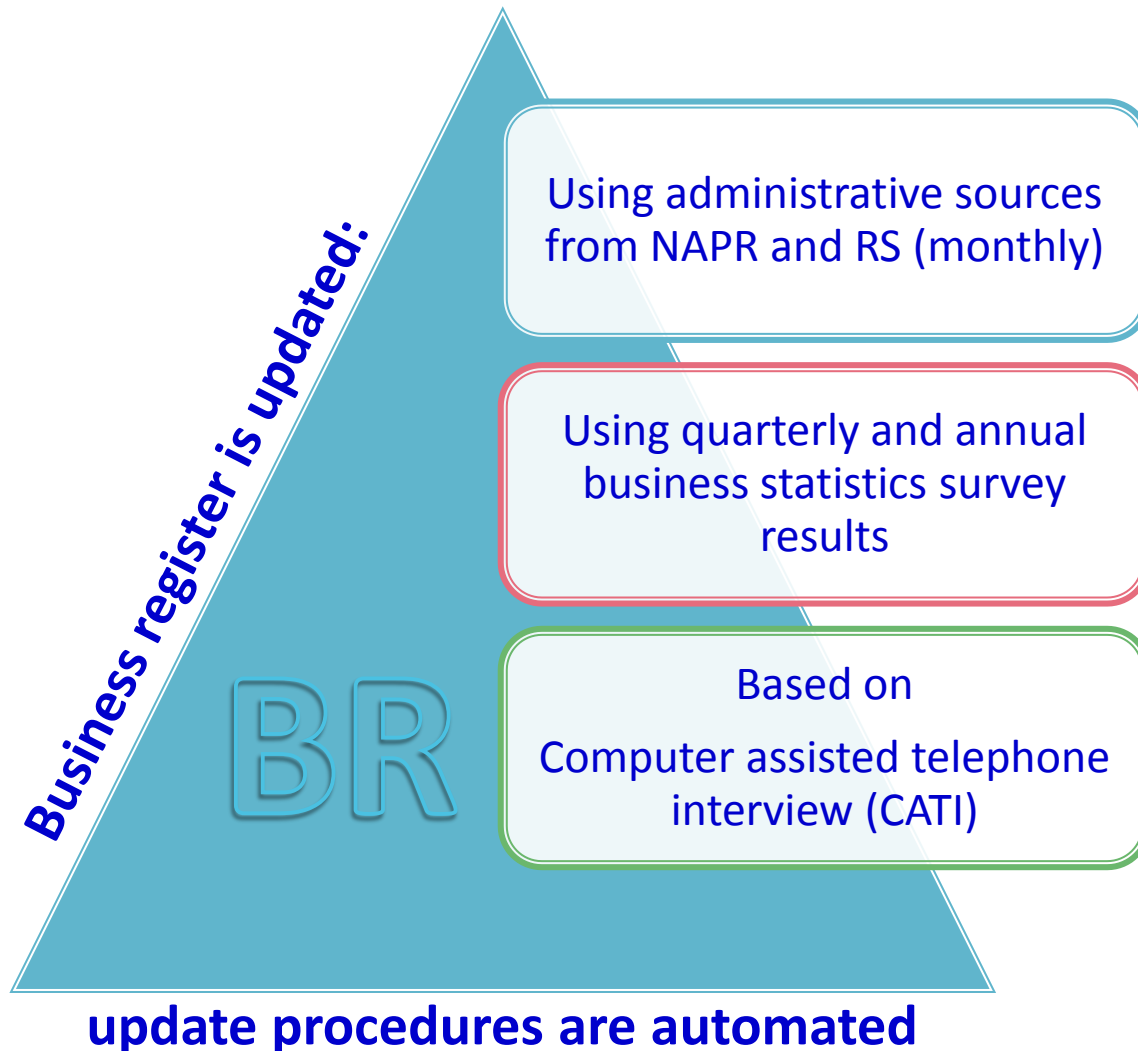

Quarterly business  
surveys

Annual business  
surveys

CATI

Other business surveys

# Update procedure

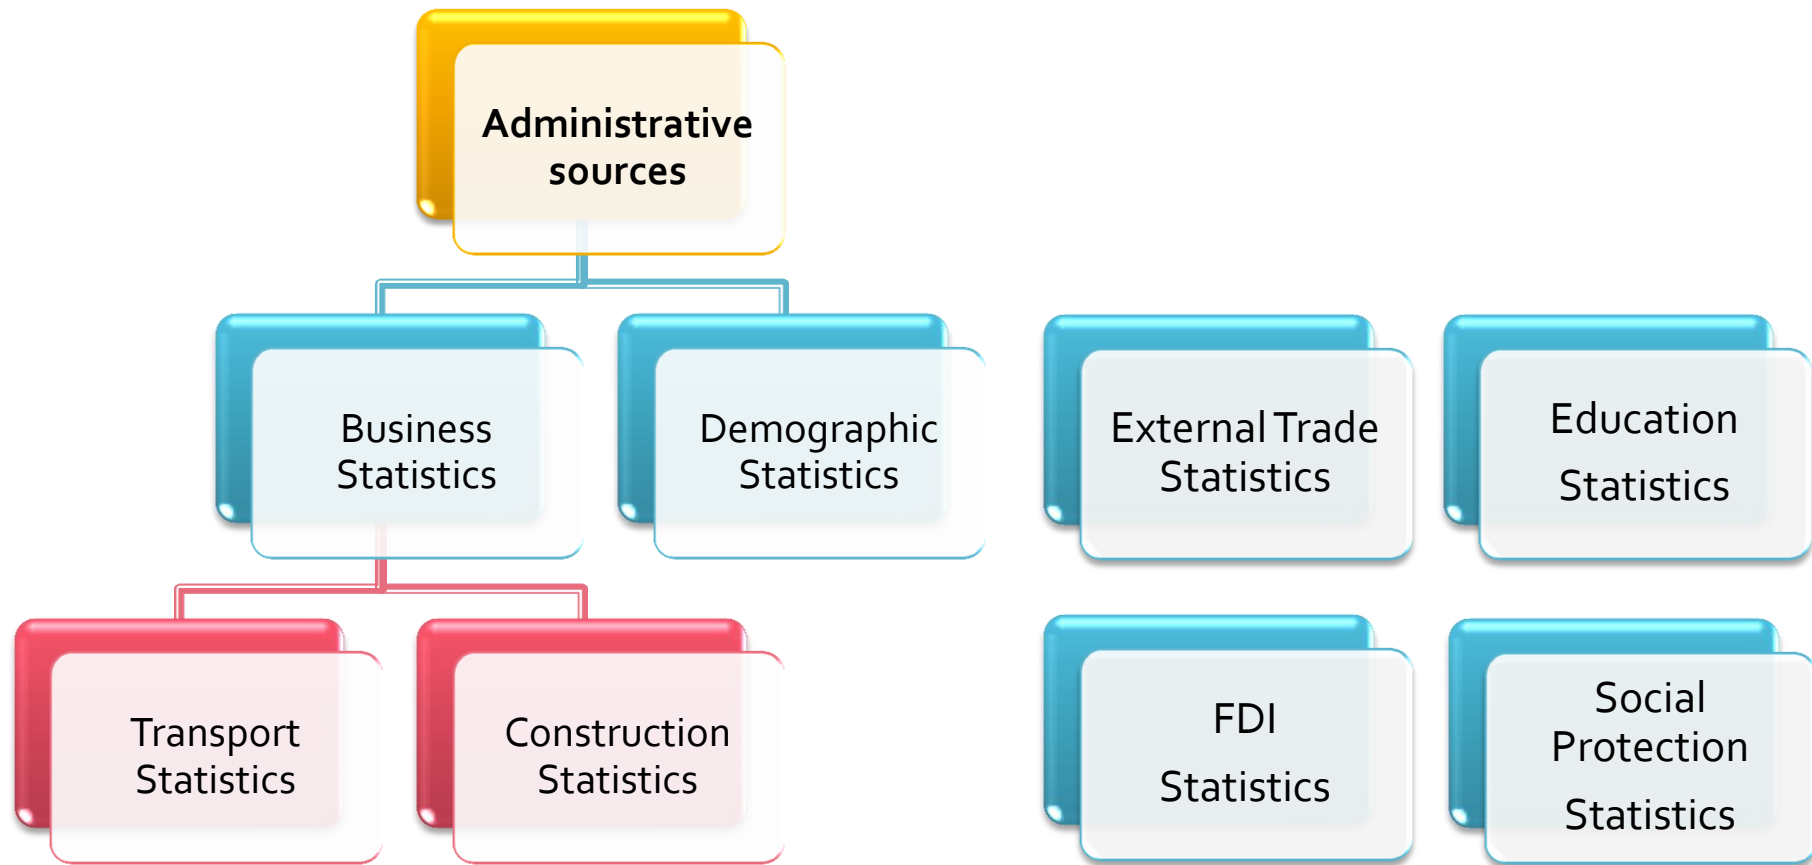

# Maintenance strategy of BR

**Maintenance strategy takes into account the following aspects:**

- Use of administrative sources
- Use of survey results
- Needs of the users
- Planning of the updates
- Rules for dealing with BR information

# Use of administrative sources

# General overview of Business Register

	number	%
Number of entities	<b>660888</b>	<b>100</b>
Number of variables	25	-
<u>Information about:</u>		
Kind of economic activities	280266	42.4
of which:		
5 digit	244424	37.0
4 digit	25219	3.8
3 digit	8504	1.3
2 digit	2119	0.3
Actual address	334094	50.6
Turnover or income	284467	41.0
Number of persons Employed	134078	20.0

# Role of Business Register for surveys

- All business surveys are based on the business register
- GEOSTAT uses only one sampling frame for all business surveys
- Every year a new sampling frame is provided containing all metadata
- The business register is continuously updated during the year
- The structural data and all statistical information are integrated
- Information on employment and turnover is available from administrative sources every month and quarter
- The NACE code is updated on a regular basis using various sources

# Existing problems and possible solutions

- **Quality of administrative data**

  - accuracy of data

  - incomplete data

- **Methodology**

  - differences between administrative and statistical processes in terms of definitions etc.

- **Not sufficient recourses**

  - financial recourses

  - human recourses

- **Non response**

## KEY INDICATORS

### GEORGIA

C E N S U S 2 0 1 4

## Main Results

**Area (sq.km)** 69,700

**Population of Georgia (thousand persons)**  
By January 1, 2016 3720,4

**Capital - Tbilisi**  
**Population (thousand persons)** 1113,0

**Gross Domestic Product Real Growth Rate (%)**  
By 2016 (Preliminary data) 2,7

**Gross Domestic Product Per Capita (US Dollar)**  
By 2016 (Preliminary data) 3852,5

**Inflation (%)**  
Annual (July, 2017) 6,0

**Unemployment Rate (%)**  
By 2016 11,8
