

EMOS – European Master in Official Statistics

Workshop on Human Resources
Management and Training
Geneva, 16. October 2014
Živilė Aleksonyte-Cormier
Markus Zwick

EMOS

"The main goal of this project is to establish a quality label for university 'European Official Statistics' programmes that meet agreed standards in education. University programmes that are benchmarked to these standards become members of the 'European Official Statistics' network."

Ex-Ante Evaluation Document for the project, May 2011.

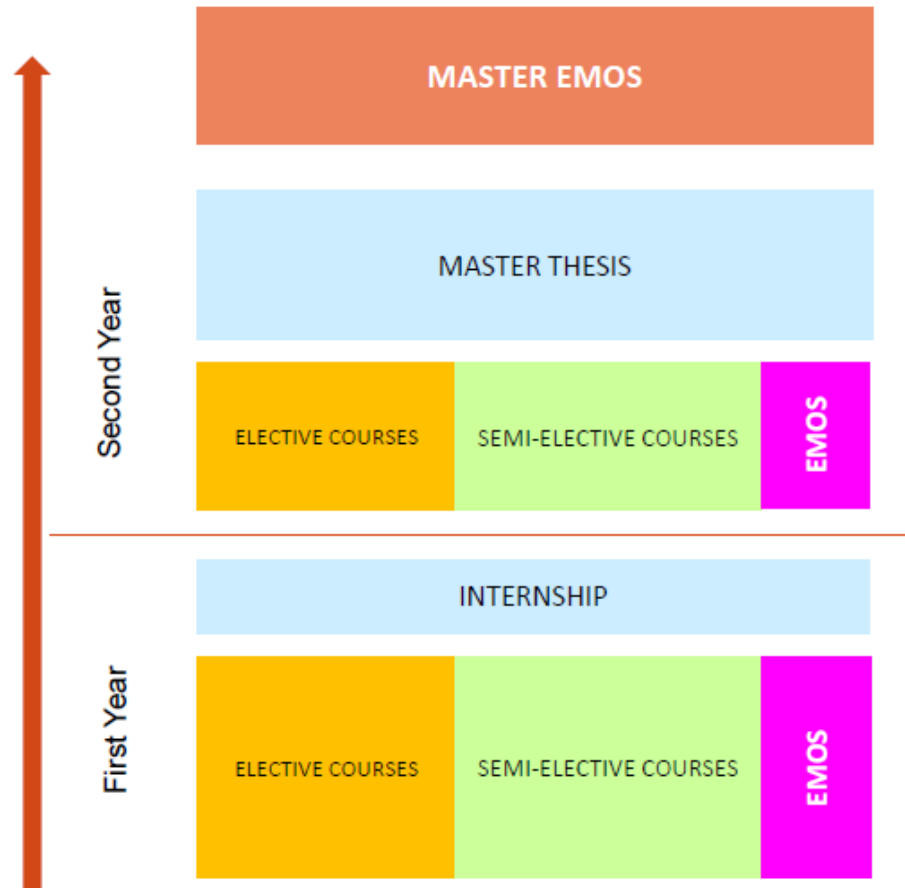

Feasibility study 'Towards a European Master in Official Statistics'

European
Commission
