What we want from you

HLG Roadmap

Competitive and very relevant
Statistical integration

Product set rejuvenation
Product set agility

Process
rationalisation

First preconditions for
process improvement

Adapted workforce

Modular statistical product set

Plug and play statistical infrastructure

PRIORITIES FOR 2013:

Inputs:

- Derived from the HLG vision and strategy
- Suggested by HLG members
- Harvested in Brainstorm sessions
- Grouped into work packages and tasks
 - Strategic and Organizational
 - Products
 - Processes
 - Standards
 - Communications

Workpackage types

- Green: HLG-BAS + secretariat
- Yellow: lower priority?
- Red: key project?

Workpackages

Strategic and Organisational

- 1 HLG Vision and Strategy
- 2 High Level architectures
- 3 Workforce
- 4 Legal and Licensing issues

Workpackages

Products

- 5 Market Research
- 6 Improved access to microdata
- 7 New data sources

Workpackages

Processes

- 8 Data Editing
- 9 Plug and Play architecture
- 10 Sharing

Workpackages

Standards

- 11 GSBPM / GSIM maintenance
- 12 Streamlining standards
- 13 Quality

Workpackages

Communications

- 14 Communication in NSOs
- 15 Public outreach

What we want from you

Small group discussions to determine:

Is anything missing from the Work Package list?

Top 3 priority work packages (in priority order)

Links and dependencies between work packages

How to implement them?

- Use an existing expert group?
- Create a temporary cross-cutting group?
 - What sort of people do we need?
 - How can existing groups contribute?
- “Sprints”?

Procedure

First we discuss in small groups

- Prepare for plenary

lunch

Plenary discussion

- Decide on priorities and work

Steps (small groups)

Step 1: Agree top 3 priorities and their priority order

- Consider each red and yellow work package in turn
- Are there any dependencies between work packages
- Are there any missing work packages?

Step 2: Discuss the 3 priority work packages:

- What are the contents of each work package?
- What are the expected outputs?
- Who should be involved? (groups, people ..)

Output (small groups)

Top 3 priority work packages

- Reasons why they are important
- Description of what each work package delivers
- Proposals for implementation (sprint, virtual project...)
- Dependencies

Steps (plenary)

Reports from groups

- Creates list of top priorities
- Shows dependencies

Discussion

- The list of top priorities will be finalised

Output (plenary)

Consolidated list for 2013

- Priorities and implementation proposals

List of other important work to be done in the coming years
