

The experience of INEGI developing a GSBPM Procedural Rule

Eduardo Jallath (INEGI, Mexico)

email

Abstract

This session will present the steps taken at INEGI to map the GSBPM 5.0 document into a procedural rule. The session will cover the realized and expected impact of this ruling in the areas of :

- Strategic planning
- Compliance of UN Quality principles
- Documentation of user's needs
- Standards and operating manuals
- Budget management
- Cost tracking
- Risk Mitigation
- Software Architecture
- Education and Training

In addition, the session will cover the current situation of the GSBPM over-arching processes and the actions undertaken to develop their procedural rules.
