Purpose			
<p>The CSPA documents have been updated and the CSPA concept restated. The CSPA catalogue has to be modified to include these changes. In 2019, several services were added these need to be checked for completeness and we should continue adding services to the catalogue. The Sharing Tools Group now will focus on modifying the catalogue and adding services to the catalogue and to provide support to submitters and users of services.</p>			
Description of the activity			
<p>The CSPA catalogue will be modified to incorporate the restated CSPA concept of version 2.0. Services will be identified and made ready to be added to the CSPA catalogue. Existing entries will be evaluated and checked if the shareability level can be increased. The aim is to add around ten new services to the on-line catalogue. Surveys from substantive workshops (e.g. Data Collection, investment intentions) might be used to identify potential services. If necessary, a survey will be conducted.</p>			
Alternatives considered			
How does it relate to the HLG-MOS vision and other activities under the HLG-MOS?			
Sharing services and prevent duplication.			
Proposed start and end dates			
Start: January 2020		End: December 2020	

Guidance notes for completing the template

Business cases should be **strictly no longer than 2 pages**. Keep your text short and to the point. You can delete these guidance notes when you have completed the business case.

Business cases should not go into technical details. Remember, the audience for your business case will be chief statisticians. They will not accept a proposal just because you think it is a good idea. They will need to be convinced!
