

# UNECE SDE2020

## Opening

Virtual Workshop 2020, 31 August – 4 September 2020

Daniel Kilchmann, Swiss Federal Statistical Office

# SDE2020 – General purpose

Progress work on SDE - wider context of the HLG-MOS work programme.

- Identify new methods that can improve quality and efficiency of E&I;
- Investigate statistical quality risks arising from using new methods/data sources and how to address them;
- Develop approaches to standardizing and implementing statistical editing functionalities;
- Facilitate the sharing of experiences, ideas and tools for modernizing statistical data E&I process'.
