## Note

This publication is the sole responsibility of the secretariat. It has been prepared in accordance with the UNECE Timber Committee's approved programme of work. This information was compiled in October 2004.

The designations employed and the presentation of material in this publication do not imply the expression of any opinion whatsoever on the part of the secretariat of the United Nations concerning the legal status of any country, territory, city or area, or of its authorities, or concerning the delimitation of its frontiers or boundaries.

### Terms and Definitions Used

"Apparent consumption" is calculated by adding a country's production to imports and subtracting exports. "Net trade" is calculated as exports minus imports. European totals include the countries of Estonia, Latvia and Lithuania as well as Israel, Malta, Turkey and Cyprus.

The term "softwood" is used synonymously with "coniferous" wood and "hardwood" is used synonymously with "broadleaved" and "non-coniferous" wood.

In the tables, countries which have all data 0 or not available are not shown.

Minor differences between the text of the market statement and the tables are due to the fact that some figures in the tables were changed after the drafting of the market statement.

...	not available
0	less than half the unit
m <sup>3</sup>	cubic metre (solid volume of roundwood and processed products)
m.t.	metric ton
<b>shaded area</b>	not applicable
<i>italics</i>	secretariat estimate
