

## Group A

### Strategies to enhance wood mobilization at forest management and operational level

## Possible solutions

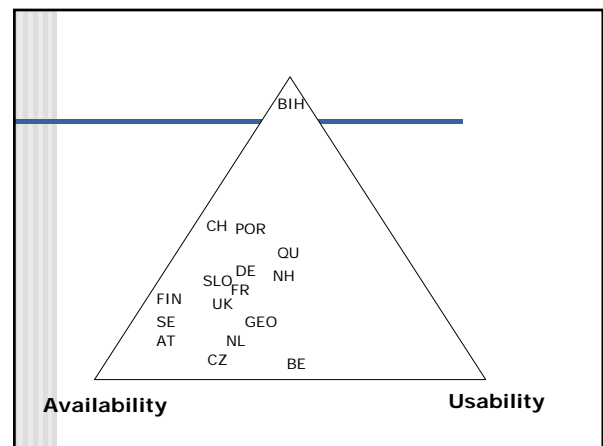

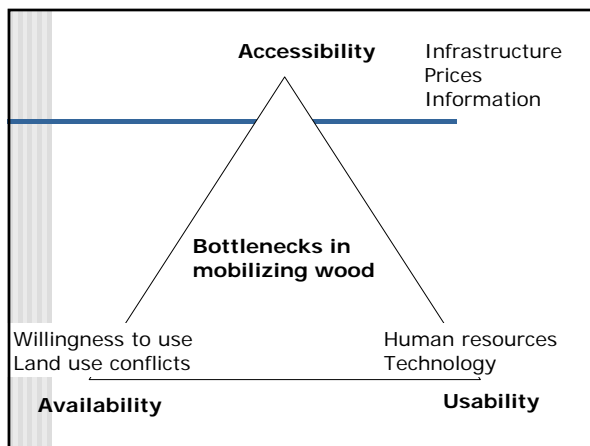

1. Access more forest
2. Harvest more forest
3. Utilize more from each harvest
4. Grow forest faster
5. Grow more forest
6. Utilize trees on non-forest land

## Possible solutions

1. **Access more forest**
2. **Harvest more forest**
3. Utilize more from each harvest
4. Grow forest faster
5. Grow more forest
6. Utilize trees on non-forest land

## Factors influencing wood mobilization

<p>+</p> <ul style="list-style-type: none"> <li>M3 per ha</li> <li>Pop density</li> <li>Intensity and focus of forest manag.</li> <li>Competing markets outlets</li> <li>Information</li> </ul>	<p>-</p> <ul style="list-style-type: none"> <li>Fragmentation of forest and ownership</li> <li>Management restrictions</li> <li>Poor infrastructure and logistics</li> <li>Availability and motivation of qualified contractors</li> </ul>

## General conclusions

---

- All solutions are local/regional
- Predominance of social factors
- Different objectives owners vs. society
- Importance of networks/cooperation
- Need for Information and Education
- Need to facilitate and coordinate UFOs
