

AGENDA: National Wood Resource Balance Workshop
Conference Room: Salle XIX

Chairman: Jeremy Wall, European Commission (DG Enterprise)

31 March Background & research on wood use

09:30 - 09:40	Welcome note Virginia Cram-Martos , UNECE Trade and Timber Division
09:45 - 09:55	Introduction and background to the work on wood resource availability and supply Kit Prins , UNECE/FAO Timber Section
09:55 - 10:20	Concept of national wood resource balance - methodological introduction Udo Mantau , University Hamburg
10:20 – 10:35	Discussion
10:35 - 10:55	Break
10:55 - 11:35	Presentation of the study on "wood resource availability and supply" , new data, lessons learned and identification of data gaps and weaknesses Florian Steierer , University Hamburg & Sebastian Hetsch , UNECE/FAO Timber Section
11:35 - 12:05	Discussion Wood availability study
12:05 - 12:35	Empirical research to fill data gaps – about field work, projections and courageous estimates Udo Mantau & Holger Weimar , von Thünen-Institute, Germany
12 :35 - 13:00	Discussion
13:00 - 14:30	Lunch break
14:30 - 15:00	Conversion factors (product input/output, equivalent wood in the rough) – key information to analyse wood balances and wood flows Alain Thivolle-Cazat , Institut Technologique FCBA, France
15:00 – 15:30	Discussion
15:30 – 15:50	Break
15:50 - 16:10	Empirical research on wood use for energy : experience in Italy Marina Vitullo & Stefano Caserini , Italian National Environmental Agency
16.10 - 16:30	Improving data on wood used by the industry in Spain Cristina Viejo Téllez , Ministry of Environment, Spain Juan Picos Martín , Monte Industria
16:30 - 16:50	Discussion
16:50 - 17:05	EFORWOOD : a European project on Sustainability Impact Assessment of the forestry-wood chain Gero Becker , University of Freiburg, Germany
17:05 - 17:20	Discussion
17:20 - 17:30	Closing and summary of the first day
17:45	Reception at the UN Palais des Nations

1 April Research on wood supply & future activities

09:00 - 09:10	Introduction Chairman
09:10 - 09:30	Empirical research on post consumer recovered wood in the Netherlands Nico Leek , Probos, Netherlands
09:30 - 09:50	Measurements of wood supply in Finland – wood removals from the forests Martti Aarne , Metla, Finland
09:50 - 10:10	Empirical research on wood flows in Poland Ewa Ratajczak , Wood Technology Institute, Poznan, Poland
10:10 - 10:40	Discussion
10:40 - 11:00	Break
11:00 - 11:20	Roundwood flow analysis in Slovenia Nike Krajnc & Mitja Piškur , Slovenian Forestry Institute
11:20 - 11:40	Drawing the bigger picture - Wood flow model in Austria Dietmar Hagauer , Austrian Energy Agency
11:40 – 12:00	Discussion
12:00 - 12:20	Experiences for estimating current actual wood supply and demand using the WISDOM approach Miguel Trossero , Food and Agriculture Organization, Rome
12:20 - 12:35	Discussion
12:35 - 14:00	Lunch break
14:00 - 14:20	Efforts on European level to improve information on wood energy and renewable energy statistics Nikolaos Roubanis , Eurostat - Energy statistics
14:20 - 14:40	Coordinated empirical research for a European wood resource balance Udo Mantau , University Hamburg
14:40 - 15:10	Discussion
15:10 – 15:30	Break
15:30 - 16:00	Workshop conclusions
16:00 – 16:15	Closing of the workshop Chairman
