

Economic Commission for Europe

Steering Committee on Trade Capacity and Standards

Working Party on Agricultural Quality Standards

Specialized Section on Standardization of Fresh Fruit and Vegetables

Sixty-fourth session

Geneva, 18 -21 April 2016

Item 3 (g) of the provisional agenda

Revision of UNECE standards

Revision of UNECE standards - Tomatoes

Comments by the delegation of Germany

The German delegation would like to draw the delegates' attention to a mistake in the provisions concerning the labeling of the size.

The standard reads today: "Size (if sized) expressed as minimum and maximum diameters." The sizing provisions allow sizing by diameter, weight and count. There is a size code defined.

Therefore, we need to correct the provisions on labeling the size as follows:

"Size (if sized) expressed as

- minimum and maximum diameters (in mm) or
- minimum and maximum weight (in g) or
- size code followed, optionally, by a minimum and maximum size or number of units. "
