

The logo features the text "1-stop" in a bold, italicized, sans-serif font. The text is centered within a circular graphic composed of two thick, light blue arrows that curve around each other to form a circle. The entire logo is set against a dark blue background with a subtle pattern of concentric circles.

Port Community System -
*From Standardisation to
Optimisation*

Today's Challenges

- Productivity of resources
- Multiple handling charges
- Congestion on our roads
- Carbon emissions

YESTERDAY

- Standardisation
- Data accuracy
- Electronic data exchange

**Level 1
Productivity**

TODAY

Connecting the
community &
freight
transactions

**Level 2
Productivity**

TOMORROW

Optimization layer
across our supply
chain

**Level 3
Productivity**

YESTERDAY

B2B Standardisation

PRA, eIDO, Comtrac, Customs Reporting, Rail tagging and Release, Train Consist, Validation, Gateway/PPA

Community payment system

many to many payment

Booking system

- Spreads the workload across the day, night, week, weekend
 - Save time and money to Stevedore and carrier
- Manage resources (people and machinery)
- Planned Truck density before arrival

YESTERDAY

Information services to industry & Government

- saving time, money and accuracy in day to day operations
- 1-Stop Gateway, Comtrac

Performance Management

- Truck & Stevedore performance

Maritime Security

- Identification cards
- OH&S safety
- Border protection
- Compliance before arrival to the facility

YESTERDAY

Level 1 Productivity

Built services for the Port Community to meet a specific need

YESTERDAY

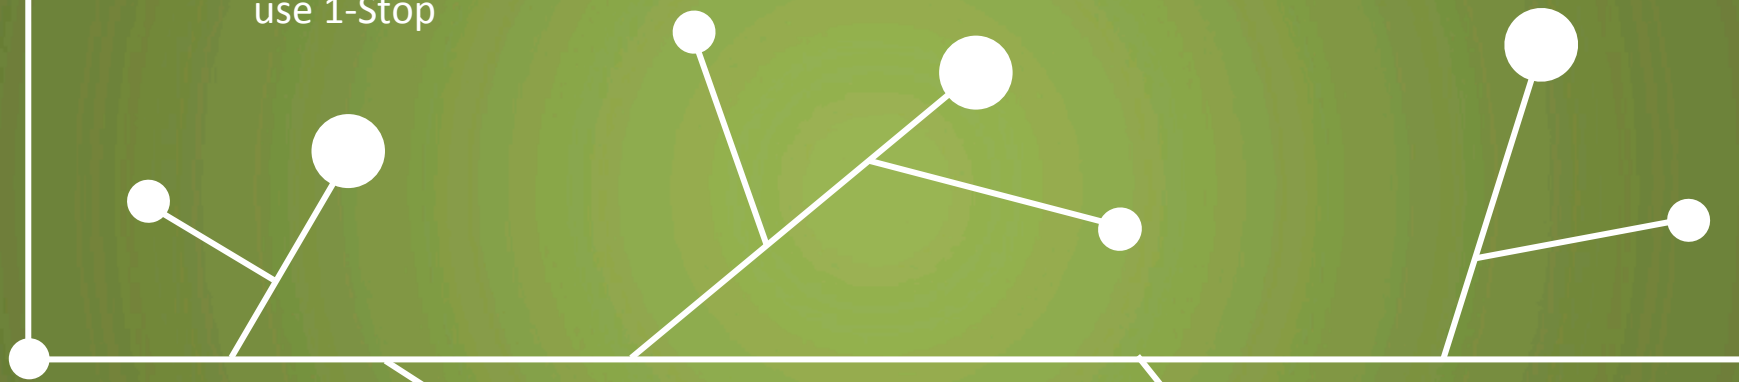

18,000 organisations that use 1-Stop

We process **\$600,000,000** in import & Export payments

100% Shipping lines & all major Port Authorities use our services

We process over **150,000,000** transactions annually to help the community with handling imports and exports cargo

100% of Australian, Auckland, Manila Container Terminals use our services

TODAY

TODAY

Level 2 Productivity

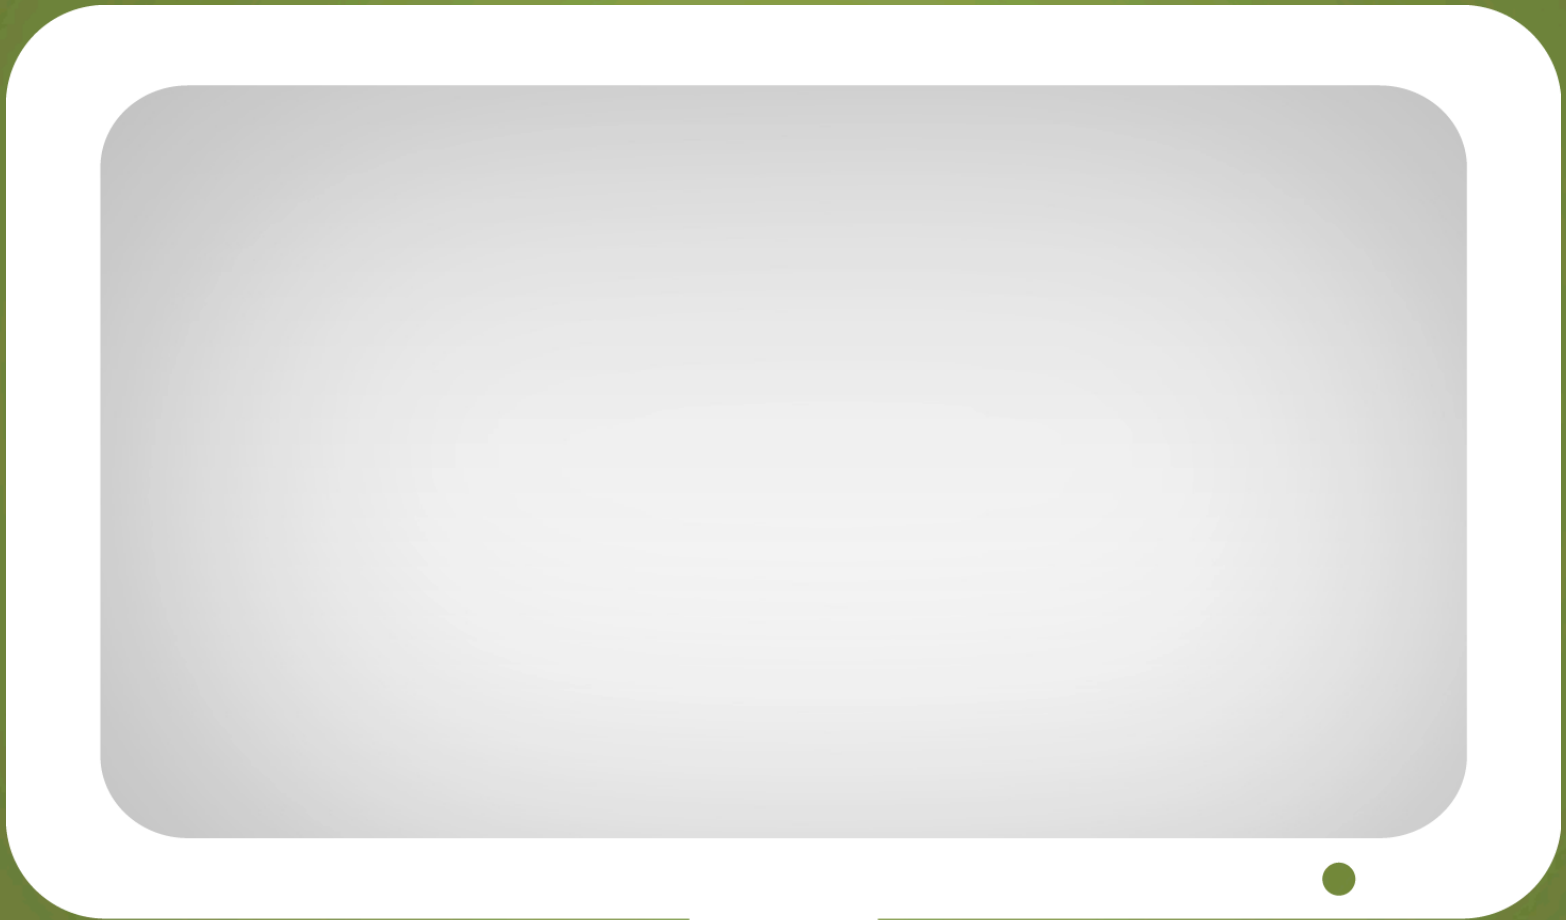

Increasing Productivity by;

- Connecting the Community
- Connecting Services

TODAY – solution provider

TODAY

Container Control is an example of what we are doing “Today” to reduce;

- unnecessary costs (handling charges)
- Road Congestion
- Carbon emissions

Industry Engagement

- More solution that are connecting
- Cargo transactions

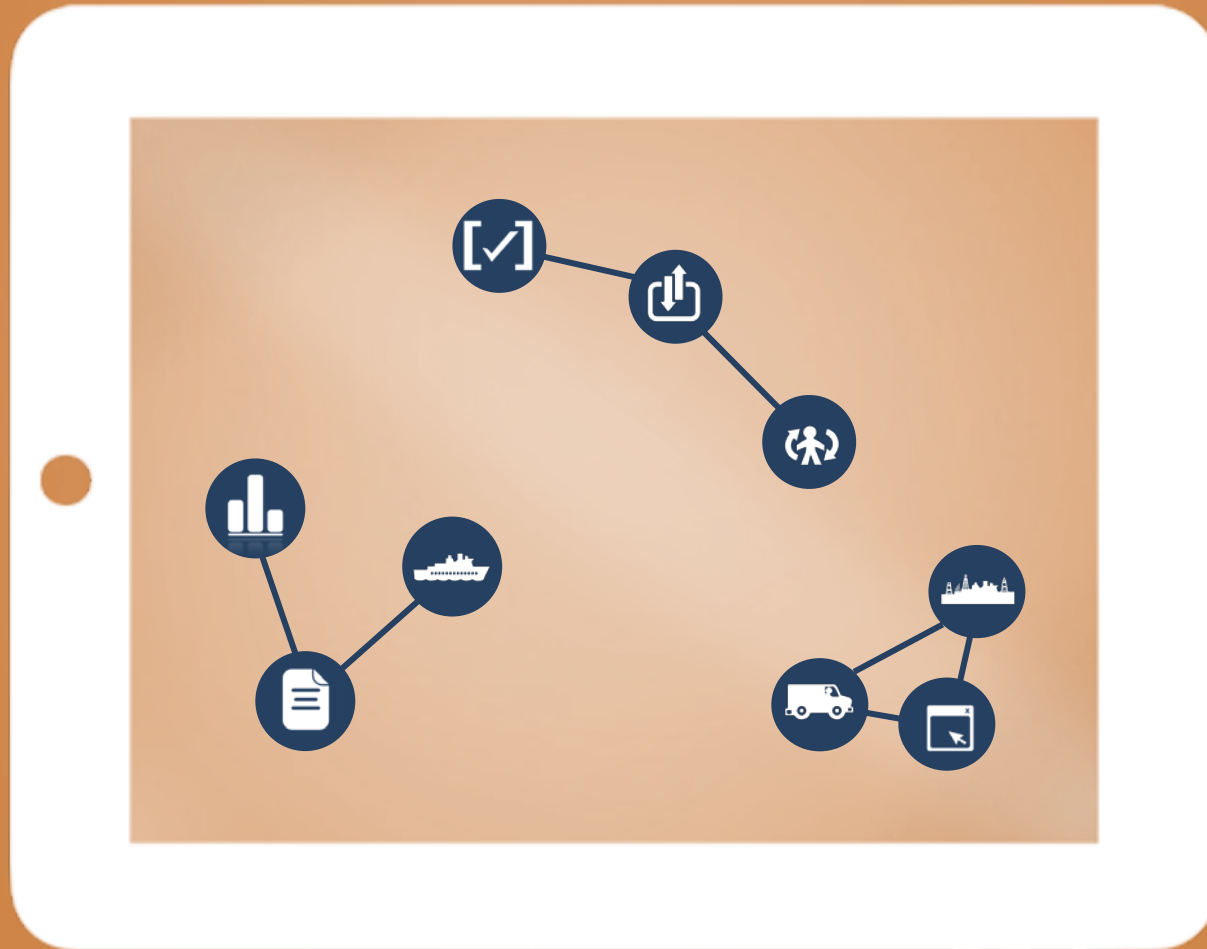

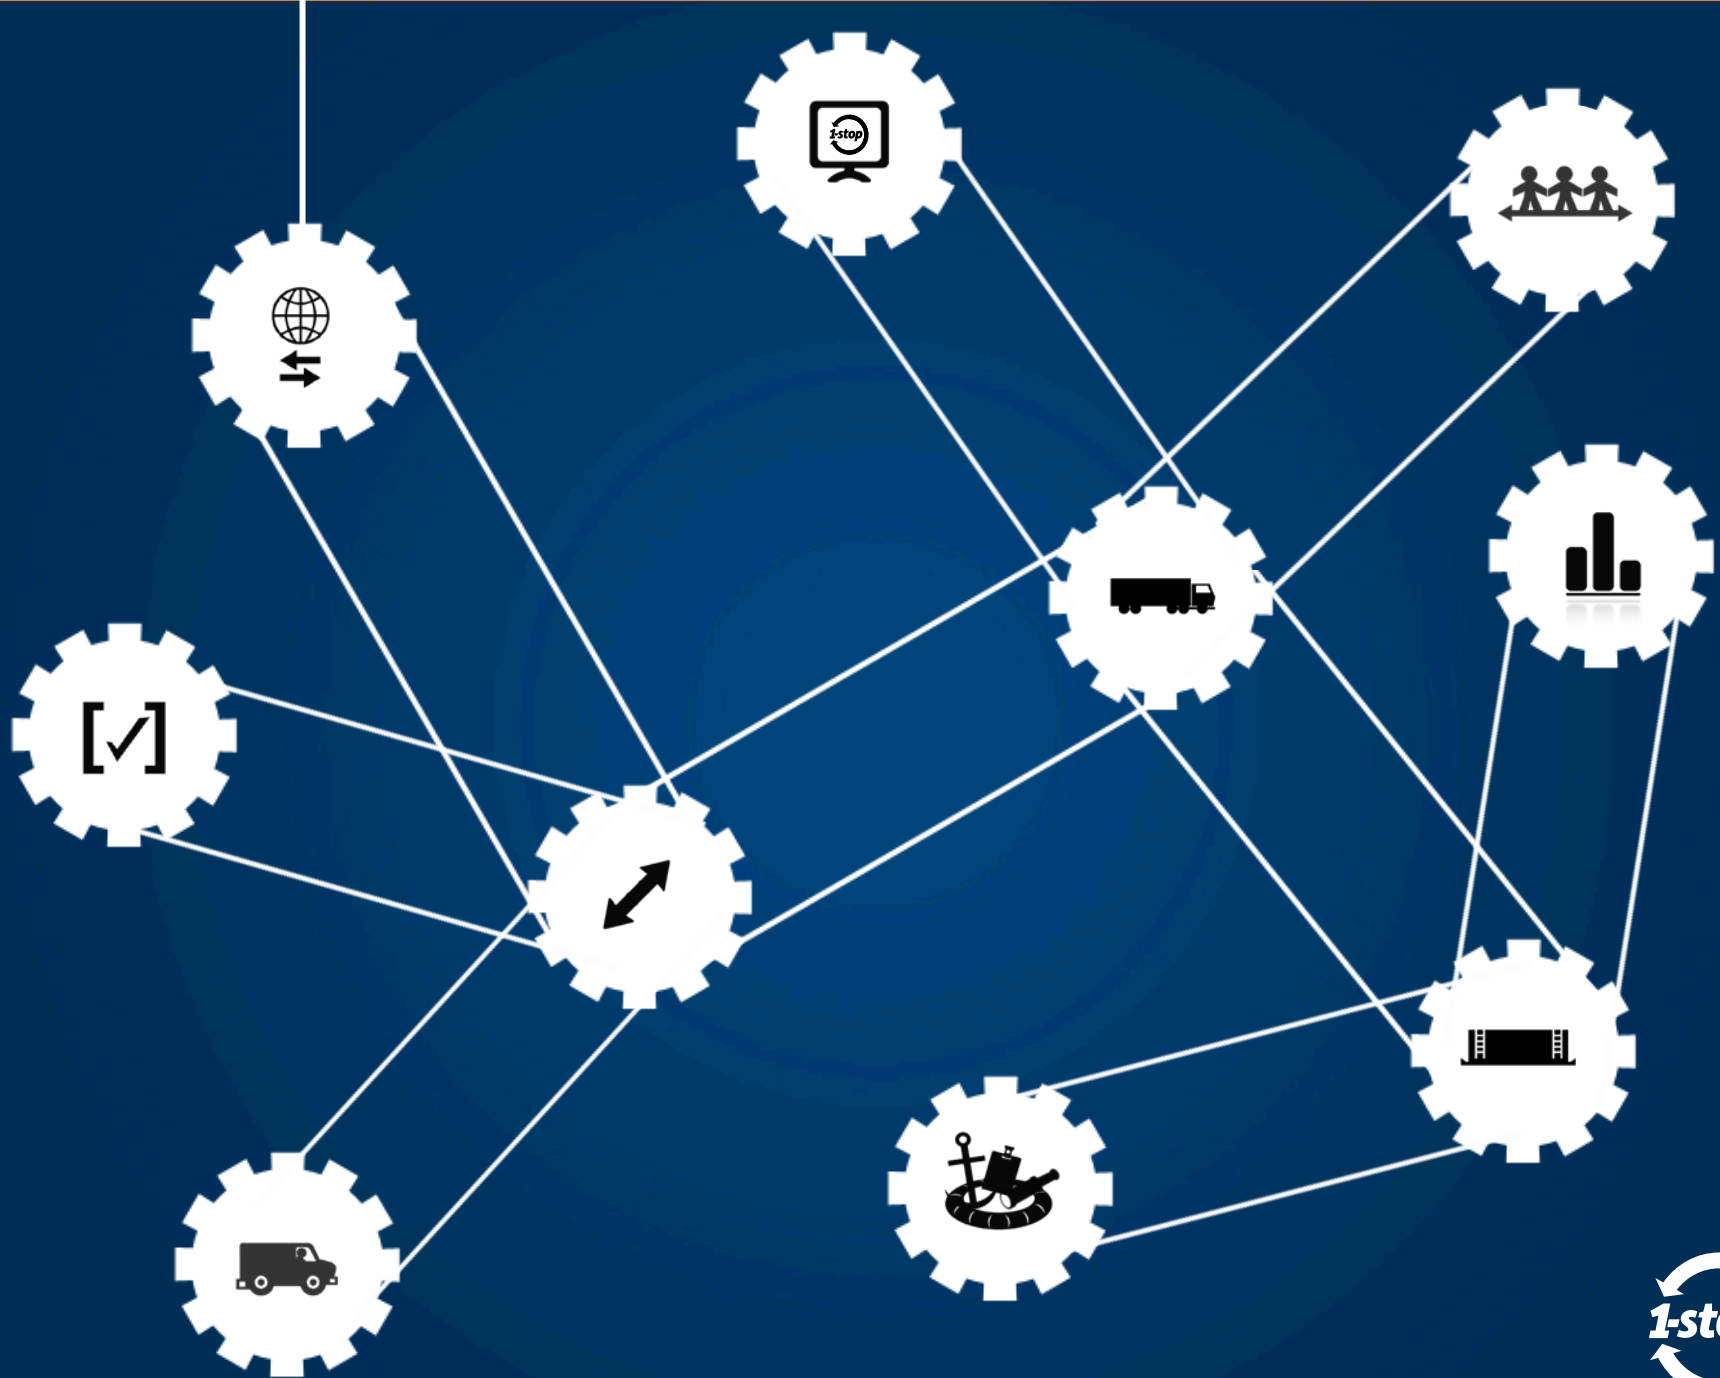

- Optimisation of assets
E.g. Container & truck utilisation

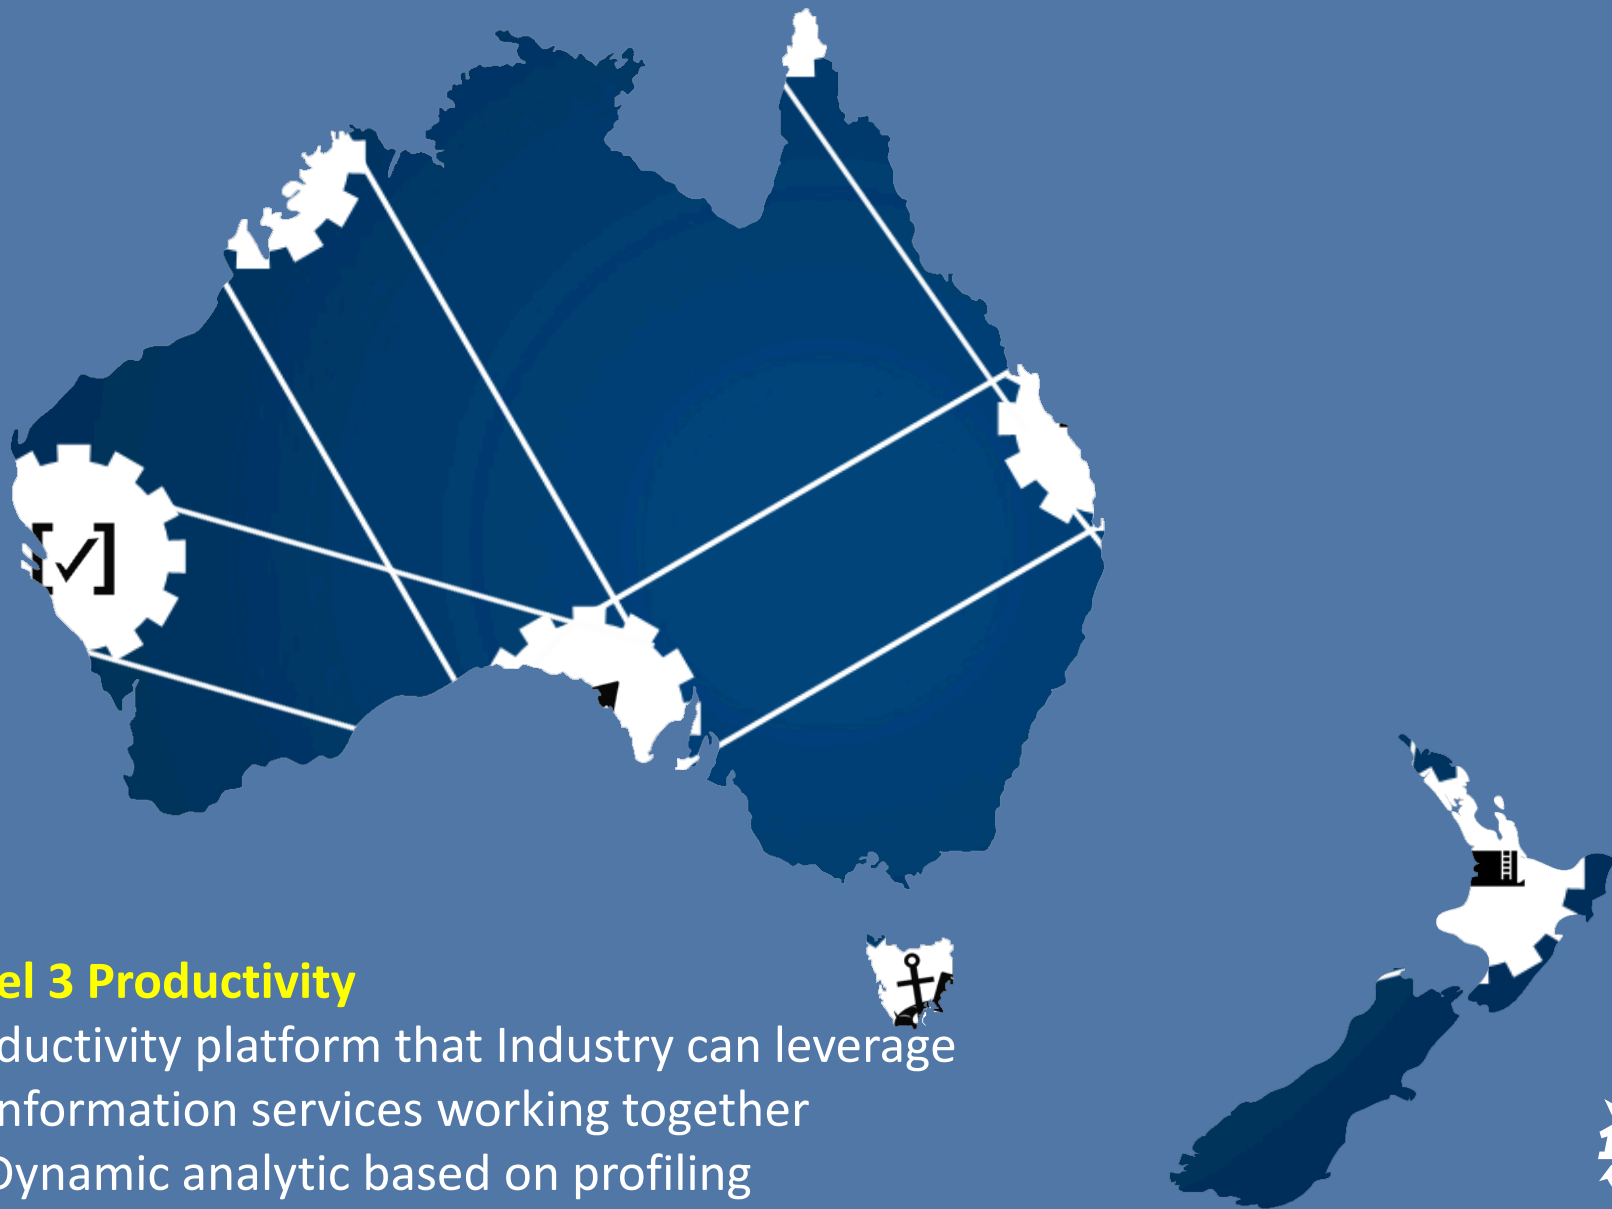

TOMORROW - smarter supply chain

– profiling, dynamic, optimised behaviours

Level 3 Productivity

Productivity platform that Industry can leverage

- Information services working together
- Dynamic analytic based on profiling
- EQUALS an economy “doing more with less”
