

electronics permit system in Thailand (Flora)

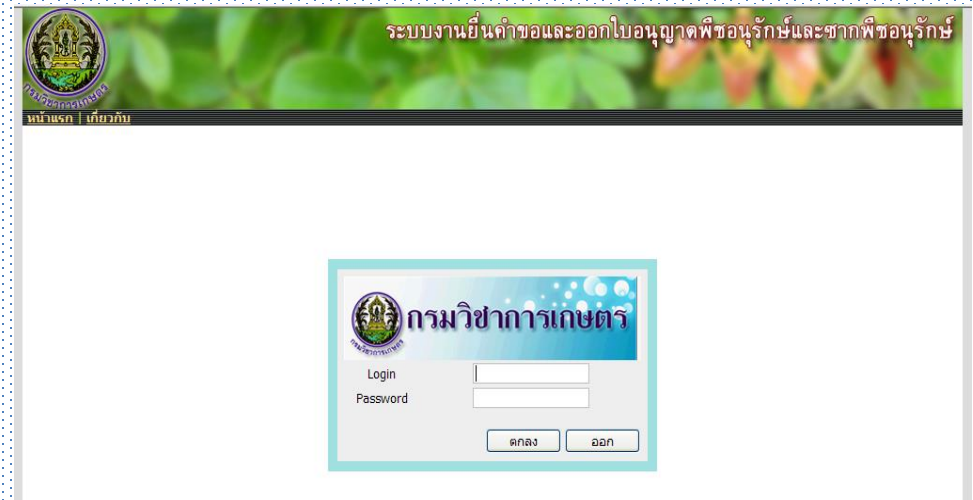

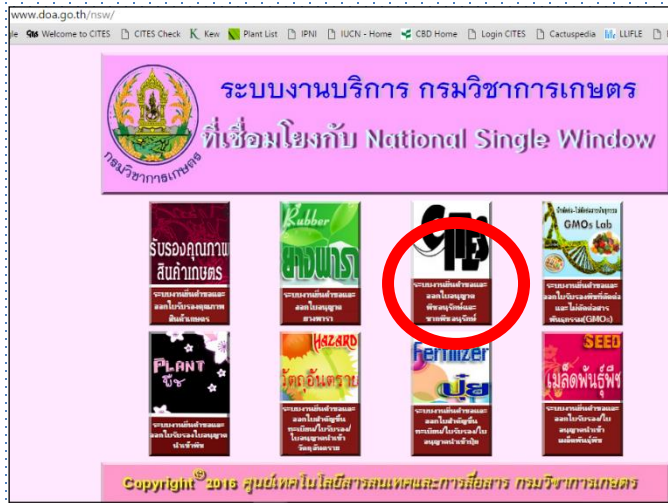

Duangduen Sripotar
Group of Research on CITES Plants,
Office of Plant Varieties Protection,
Department of Agriculture.

Who can use the CITES electronic

- Trader (Exporter/importer)
- Agent (Who operate for trader)
- Officers (CITES and plant quarantine officers)
 - ✓ Admin will register for them.

Exporter/importer

- Trader submit the application form via electronics

- we prepare a guideline to show how to use our system.
- The trader submit the information by electronics system

officers

- We have 3 steps or 3 officers in charge to issue the permit
 1. Officer who check the document
 2. Competent Authority officers (~ 20 persons around the country)
 3. Plant inspectors
- In advance permit, only 1 and 2 ; to complete the permit, the plant inspectors have to sign in box 14.
- We also have a guideline to remind the officers how to use the system

Information in electronics

- Name, address, country of trader
- Scientific name, App., description
- Quantity for each plant (trader request)
- Quantity in summary in each box (actual export/import)
- Date (issue date, validation and date of inspected)
- Place of issue and port of import/export

Exchange with Customs

After we issue the permit, following data has been sent to Customs via server of NSW.

- Product (HS code), quantity and unit
- Number of permit
- Validation of permit
- Name of exporter/importer

Our system will show license accept or reject.

Flowchart of exchange

Next step

- Change the way to exchange with Customs
- Develop the semi electronics permit to paperless permits. (in developing)
- Exchange the information with trade party
- Use block chain to exchange the information with the partner party
