

**Working Party on Regulatory Cooperation and
Standardization Policies
MARS Group Meeting
11-12 September 2017 Stockholm, Sweden**

Advisory Group on Market Surveillance

15th Annual Meeting

Common challenges and needs

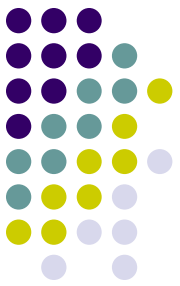

- **The importance of ensuring that products on the market are compliant and safe so as to protect consumers, workers, environment and other aspect of public interest protection**
- **Efficiently allocated limited resources**

Goals of the Meeting

- Providing forum to discuss common challenges
- Sharing information on recent development & best practices in the Region
- Capacity building

Activities

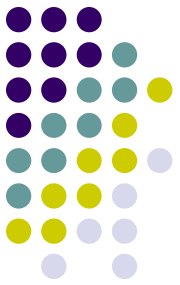

- The Plan for the further activities of the group
- To continue the development of the GSM
- To update the MS contact database
- To collect national practices of MSA for cross-border cooperation in one or more specific sectors and regions
- To work more closely with other groups under the umbrella of the WP.6, especially the sectoral initiatives and the GRM

Activities

- The develop cooperation between MSAs and conformity assessment bodies
- To continue establishing contacts between global and regional Market Surveillance Networks, encouraging them to participate in the WP.6 activities
- To explore the possibility for training of MSAs on issues related to counterfeit goods, product marks, online Market Surveillance and proactive MS

Thank you very much
