

An underwater photograph of a school of fish swimming in clear blue water. The fish are silvery and appear to be of various species, possibly sardines or anchovies, moving in a coordinated pattern.

UNECE GRM

Brief Overview

Kevin Knight (Chair)
& Lorenza Jachia

20-22 February - Meeting of the UNECE GRM Group - Geesthacht

UNECE GRM

1) Background

- UNECE
- UNECE GRM

2) Mission

- Strategic approach
- Progress to date

3) Future Role

4) Membership

1) Background

20-22 February - Meeting of the UNECE GRM Group - Geesthacht

Post-2015 Development Agenda

- 2015 a historic year for the United Nations
- **March 2015:** Sendai Framework for Disaster Risk Reduction
- **June 2015:** Financing for Development
- **September 2015:** Adoption of the SDGs by the UN General Assembly
- **December 2015:** COP 21 adopted the Paris Agreement
- **October 2016:** The New Urban Agenda

COHERENCE ACROSS THE GLOBAL FRAMEWORKS

- UNECE mission is to “help implement the Sustainable Development Goals by translating the global goals into norms, standards and conventions”
- UNECE has **56 member states**
- They **develop & share best practice under the aegis of UNECE** on economic and sectoral issues.
- Furthermore, **all interested United Nations member States may participate** in the work of UNECE.
- Currently **over 70 international professional organizations and other NGOs** take part in UNECE activities.
- More details? See: OECD

RM & the 2030 agenda

17 PARTNERSHIPS FOR THE GOALS

International trade/PPPs

6 CLEAN WATER AND SANITATION

Environmental management

8 DECENT WORK AND ECONOMIC GROWTH

Transfer of knowledge and technology

11 SUSTAINABLE CITIES AND COMMUNITIES

Smart cities

7 AFFORDABLE AND CLEAN ENERGY

Energy efficiency

6 CLEAN WATER AND SANITATION

Emission standards

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

Resilience

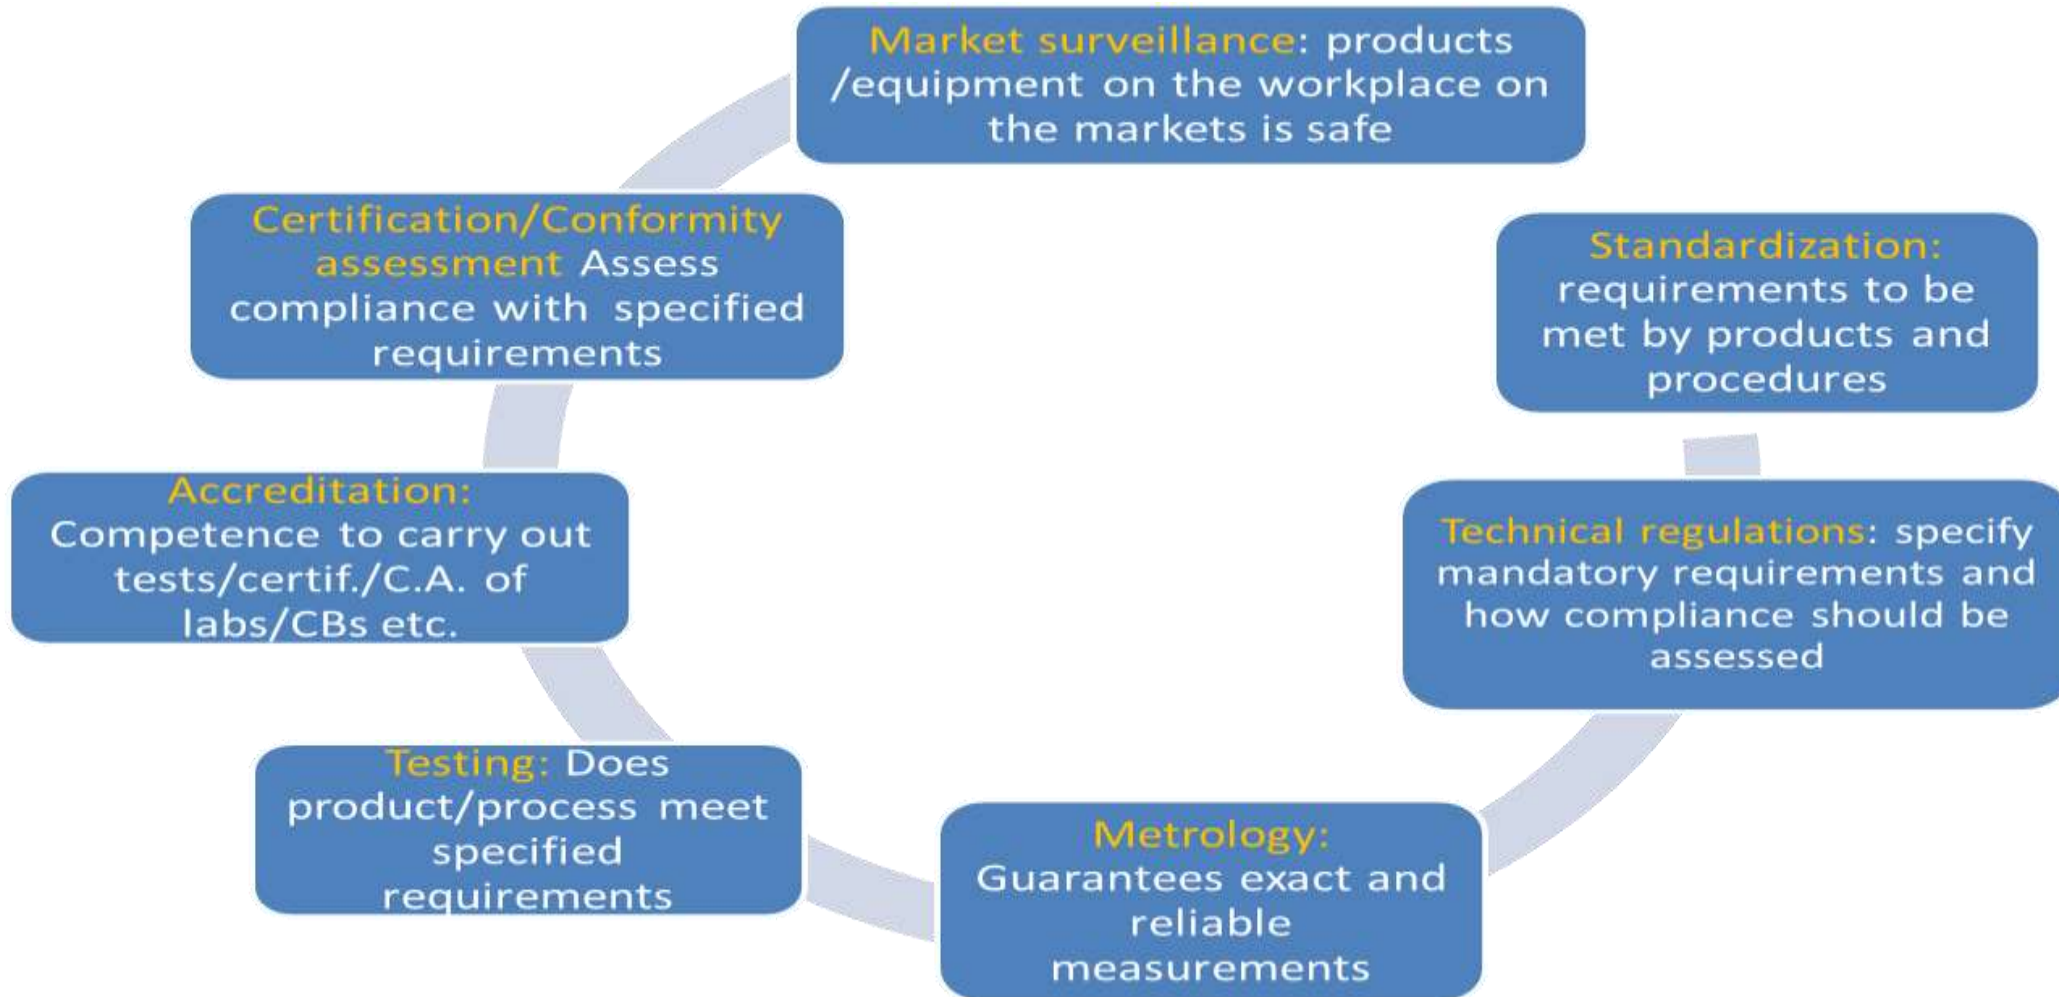

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

Transition to a green economy

There is more to regulations than a law!

UNECE

- UNECE mission is to “help implement the Sustainable Development Goals by translating the global goals into norms, standards and conventions”
- UNECE has **56 member states**
- They **develop & share best practice under the aegis of UNECE** on economic and sectoral issues.
- **All interested United Nations member States may participate** in the work of UNECE.
- Currently **over 70 international professional organizations and other NGOs** take part in UNECE activities.
- More details? See: OECD – UNECE publication:
http://www.unece.org/fileadmin/DAM/trade/wp6/AreasOfWork/RegulatoryCooperation/UNECE_Full_Report.pdf

WP6 on «Regulatory cooperation and std policies»

- Promote the use of standards by policy-makers and business
- Institution-building through design of regulatory systems that integrate standards
- Standards in the implementation of global frameworks (SFDRR, SDGs, Paris Agreement, UN/HABITAT3)

WP. 6 and the SDGs: ongoing initiatives:

- SDG5: Standards as enablers of gender equality and the empowerment of all genders
- SDG4: Furthering education on standardization
- SDG 11: Enhancing the use of risk management tools in public policy
- SDG 17: Promoting partnerships between standards bodies and authorities at local, national and global bodies & common regulatory frameworks in critical sectors

UNECE GRM

- The UNECE Group of Experts on Risk Management in Regulatory Systems ('UNECE GRM') was **established in 2010** by the Working Party on Regulatory Cooperation and Standardization Policies.
- The group is quite diverse and with **experts from 13 countries** participating. They bring perspectives from authorities, standards-setting organizations, conformity assessment bodies, universities and research institutions as well as business companies.
- **Bi-monthly webinars** and **electronic data exchanges** are the major forms of communication in the group.
- Our **goal is to improve the management of hazards** that have the potential to affect the quality of products and services, and/or cause harm or damage to people, the environment, property and immaterial assets.
- GRM **develops/shares best practice on the use of risk management** in regulatory and managerial activities.
- **NEW: In-person meetings**, today's one being the 1st one/ pilot.

2) Mission

20-22 February - Meeting of the UNECE GRM Group - Geesthacht

Mission (to date)

Strategic Approach

UNECE GRM provides “on-demand” advice/ recommendation by:

- **increasing the level of involvement** of regulatory stakeholders in GRM’s activities;
- **inviting regulatory stakeholders** to share their needs related to the application of risk management tools in regulatory frameworks; and,
- **developing specific recommendations** for stakeholders based on needs.

Progress

To date, UNECE GRM has focused its efforts on the development of methodologies for field projects to implement GRM recommendations within a given sector by:

- **building capacity** to identify and manage the risks that confront various sectors;
- **promoting a shared vision** of optimal outputs proportionate to existing risks; and,
- **developing action plans** to fully implement risk management methodologies and to **evaluate existing regulations against the identified risks.**

Achievements

Field work: In cooperation with UNIDO workshops in Nigeria and in Malawi – forthcoming activities in cooperation with ARSO & the EU ACP TBT project in Uganda and Namibia

Regulatory cooperation: Two recommendations on how to use RM in all phases of regulatory work (from development of regulations to CA and MS)

R. Managing Risk in Regulation

The Working Party on Regulatory Co

Recognizing that mitigating risk that development is an important goal for policy-makers

Underlining that risk management is convergence at international and regional level

Emphasizing the role of risk management goals. Stressing that risk-management tools are essential for regulatory action and of regulatory systems,

P. Crisis Management within a Regulator

The Working Party on Regulatory Cooperation and Standardization Policies

Recognizing the role of technical regulation, conformity assessment and surveillance in preventing and addressing crises in various fields,

Noting that some risks are almost impossible to identify, and if identified, cannot be totally mitigated,

Recognizing the common interest of all regulatory stakeholders, economic operators and consumers, in developing and applying tools to effectively anticipate, and if necessary, resolve situations of crises.

3) Future role

20-22 February - Meeting of the UNECE GRM Group - Geesthacht

Future role

- UNECE GRM was asked to hold a **face-to-face meeting** to discuss approaches for managing risks in regulatory systems that would **support member countries in moving forward on the Sustainability Development Goals of the United Nations** while building upon the ongoing work of GRM.
- Regulators and experts will be invited to such a meeting **to identify and outline subject areas where risk management standards would enable countries** to implement risk management approaches in their regulatory activities to achieve the Goals.
- Based on the interest expressed, **Goal 14 “Life Below Water”** was recommended to GRM as an **initial step for the meeting** as goal 14 covers a broad range of environmental, cultural, social and economic risks that could be effectively and efficiently managed through risk management processes and regulatory standards.

4) Membership

20-22 February - Meeting of the UNECE GRM Group - Geesthacht

UNECE GRM – Membership

Chair

Kevin Knight

(Chair, Technical Committee 262: Risk management, International Organization for Standardization)

Coordinators

Donald Macrae *(Independent consultant)*

Valentin Nikonov *(Project Manager, Bank24.ru)*

Members

Alberto Alemanno

(Associate Professor of Law, HEC Paris, France)

Florentin Blanc

(The World Bank Group)

Bo Yumin

(National Accreditation Service for Conformity Assessment, China)

Alex Dali

(President, Global Institute for Risk Management Standards, G31000, France)

Valery Hurevich

(Belarusian State Institute for Standardization and Certification (BelGISS), Belarus)

Markus Krebsz

(PRMIA, United Kingdom/ Germany)

Justin McCarthy

(PRMIA, Ireland)

Peter Morfee

(Ministry of Economic Development, New Zealand)

Christophe Renard

(Cotecna, Switzerland)

Lorenzo Allio

(Independent Consultant on Regulatory Reform and Risk Regulation, and representative of the European Risk Forum)

Roland Cormier

(Helmholtz-Zentrum Geesthacht, Germany)

A.M. Dolan

(University of Toronto, Canada)

Graeme Drake

(Committee on conformity assessment, International Organization for Standardization)

Phil Kelly

(Liverpool Business School, United Kingdom)

Sean MacCurtain

(Secretary, Committee on conformity assessment, International Organization for Standardization)

Marc Schaedeli

(Group for Risk Management, Nestlé)

Paul Hopkin

(Institute of Risk Management, United Kingdom)

Alpaslan Menevşe

(Chairman, Mirror Technical Committee ISO 31000, Turkey)

Greg Paoli

(Risk Sciences International, Canada)

Dan Roley

(Caterpillar, United States)

Paul Taylor

(Federation of European Risk Management Associations -FERMA, United Kingdom)

Jan van Tol

(Ministry of Interior and Kingdom Relations, Netherlands)

Simon Webb

(The Nicholas Group, United Kingdom)

Olivier Testoni

(International Telecommunication Union)

Vincent Tophoff

(Senior Technical Manager, International Federation of Accountants)

Mikhail Rogov

(RusRisk, RusHydro, Russian Federation)

20-22 February - Meeting of the UNECE GRM Group - Geesthacht

Thank you / Herzlichen Dank
