B. Justification

The justifications given in document GRSG/2009/24 can substantially remain unchanged. The proposal however has been further improved for taking into account the comments received at the 97th session of GRSG, in particular document GRSG-97-36 (NL).

Paragraph 7.1.

When the modified device doesn't fit within the existing type definition then a new type approval has to be granted and it cannot be treated as a revision or extension. This should be reflected in paragraph 7.1.

Furthermore the standard procedure is that all other modifications are revisions, but in some cases they become an extension. Also in case of an extension the administrative department (also named approval authority or competent authority) has to issue the revised pages of the information document as prescribed in paragraph 7.1.1. Yet in both cases the revised pages of the information documents should be issued by the administrative department in order to obtain proper alignment with Directive 2007/46/EC, Articles 14 & 15.

Paragraph 7.3.

Paragraph 7.3. has been deleted, as it is covered by the first sentence of paragraph 7.2., modified to include the case of extension of approval. This is also proposed as an alignment on the document GRSG-97-36 (NL).

Paragraph 16.1.

Same justification as for paragraph 7.1.
