

Proposal for amendments to Regulation No. 121 (Identification of controls, tell-tales and indicators)

The modifications are marked in bold for new or strikethrough for deleted characters

I. Proposal

Table 1, amend to read:

"

No.	Column 1	Column 2	Column 3	Column 4	Column 5
	Item	Symbol ²	Function	Illumination	Colour
...
3a	Headlamp high beams	 1, 13, 18	Control	No	-
			Tell-tale	Yes	Blue
3b	Automatic main beam functions	  øF  AUTO #1, #6, #13	Control	No	-
			Tell tale	Yes	-
...

..."

II. Justification

WP29 at its 158th session adopted ECE/TRANS/WP.29/2012/94, based among others on ECE/TRANS/WP.29/GRSG/2012/11, which added a new paragraph 5.2.10. providing generic provisions with regard to automatic functions.

It was agreed at the 102nd GRSG session that the symbols for automatic functions would be deleted from the table with the transfer of the document to WP.29, but document ECE/TRANS/WP.29/2012/94 unfortunately did not endorse this change. As a result, the current text of the Regulation erroneously contains generic provisions together with particular provisions for automatic functions.

This proposal deletes this unnecessary repetition.
