

## **Proposal for Supplement 3 to the original series of amendments to Regulation No. 128**

### **I. Proposal**

*Annex 1,*

*Sheet LW2/1, the table, amend to read:*

“

<b>Cap PGJY50</b> in accordance with IEC Publication 60061 (sheet 7004-182-1)
---

“

### **II. Justification**

At the time of the proposal to GRE for new category LW2, the IEC cap sheet number was not yet assigned nor was the cap designation finally confirmed. A proper reference is necessary for type approval of light sources according to this category. This reference is inserted by this proposal and square brackets are removed around the cap designation.
