

Proposal for Supplement 24 to the 02 series of Regulation No.7 (Position, stop and end-outline lamps)

I. Proposal

Paragraph 1.6., amend to read:

"1.6. *"Front and rear position lamps, stop-lamps and end-outline marker lamps of different type"* means lamps which differ in such essential respects as:

- (a) The trade name or mark;
- (b) The characteristics of the optical system (levels of intensity, light distribution angles, category of light source, light source module, etc.);
- (c) ~~The system used to reduce illumination at night in the case of stop-lamps with two levels of intensity.~~ **The variable intensity control, if any.**

A change of the colour of the light source or the colour of any filter does not constitute a change of type."

II. Justification

To correct an error introduced by Supplement 21 to the 02 series of Regulation No.7 by ECE/TRANS/WP29/2012/65 (ECE/TRANS/WP.29/GRE/2011/8)
