# Transport SDGs focus - Targets

By 2020, halve the number of global deaths and injuries from road traffic accidents.

Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all.

By 2030, provide access to safe, affordable, accessible and sustainable transport systems for all, improving road safety, notably by expanding public transport, with special attention to the needs of those in vulnerable situations, women, children, persons with disabilities and older persons.

# Transport SDGs focus - Indicators

3.6.1: Death rate due to road traffic injuries

9.1.1: proportion of rural population who live within 2 km of an all-season road.

9.1.2: Passenger and freight volumes, by mode of transport

11.2.1: proportion of population that has convenient access to public transport, by sex
