

## Proposal for Supplement 10 to the original series of amendments and Supplement 2 to the 01 series of amendments to Regulation No. 121 (Identification of controls, tell-tales and indicators)

The text reproduced below was prepared by the expert from the International Organization of Motor Vehicle Manufacturers (OICA). It aims at clarifying the application of the footnote<sup>18</sup> in the case where tell-tales no. 1 and no. 19 are combined. It is based on informal document GRSG-112-24 distributed during the 112th session of the Working Party on General Safety Provisions (GRSG) (see report ECE/TRANS/WP.29/GRSG/91, para. 39). The modifications to the current text of UN Regulation No. 121 are marked in bold characters for new characters.

### I. Proposal

Table 1, footnote 18, amend to read (inserting in symbol no. 1 a reference to existing footnote<sup>18</sup>):

No.	Column 1	Column 2	Column 3	Column 4	Column 5
	Item	Symbol <sup>2</sup>	Function	Illumination	Colour
1.	Master lighting switch	 1, 18	Control	No	
	Tell-tale may not act as the tell-tale for the position (side) lamps		Tell-tale <sup>12</sup>	Yes	Green
2.	Headlamp passing beams	 1, 6, 13, 18	Control	No	
			Tell-tale	Yes	Green
...	...	...	...	...	...
19.	Position, side marker, and/or end-outline marker lamps	 1, 6, 18	Control	No	
			Tell-tale <sup>12</sup>	Yes <sup>6</sup>	Green
...	...	...	...	...	...

<sup>1</sup> Framed areas of the symbol may be solid.

<sup>6</sup> Separate identification not required if function is combined with master lighting switch.

<sup>12</sup> Not required if instrument panel lights are lit automatically on activation of the master lighting switch.

<sup>18</sup> Symbol may be shown in other colours than specified in column 5 in order to convey different meanings according to the general colour coding as proposed in paragraph 5. of ISO 2575-2004.

### II. Justification

1. At its 170th session in November 2016, WP.29 adopted Supplement 9 to the original series of amendments and Supplement 1 to 01 series of amendments to UN Regulation No. 121 (ECE/TRANS/WP.29/2016/96 and ECE/TRANS/WP.29/2016/97). Both documents were based on ECE/TRANS/WP.29/GRSG/2015/24 as approved by the Working Party on General Safety (GRSG) at its 110th session. These Supplements allow to tell-tales no. 2 and no. 19 the possibility to use other colours than green.

2. However this proposal did not clearly take into consideration the possibility offered with footnote 12 that tell-tale no. 19 may be combined with tell-tale no. 1.

3. The proposed amendments clarifies that at the condition tell-tales no. 1 and no. 19 are combined, then footnote 18 is applicable to tell-tale no. 1.

4. The proposed amendments do not change any of the technical requirements of UN Regulation No. 121. Therefore, this proposal does not contain transitional provisions.
