Specifications for the Construction, Preparation and Certification of the flexible Pedestrian Legform Impactor (FlexPLI)

1. General provisions

- 1.1. This Addendum provides the specifications for the flexible Pedestrian Legform Impactor (FlexPLI) to be used for testing of motor vehicles with regard to their pedestrian safety performance. Detailed specifications for the design, certification and assembly/disassembly of the FlexPLI published at the website of the Informal Group on gtr No. 9 – Phase 2.
- 1.2. WP.29 introduced phase 2 of the global technical regulation No. 9 on Pedestrian Safety under the 1998 Agreement and the 01 series to Regulation 127 concerning the approval of motor vehicles with regard to their pedestrian safety performance under the 1958 Agreement. In order to ensure consistency in the application of the test requirement within these regulations, it is imperative to include within the reference materials available to regulators, Type Approval Authorities and Technical Services, accurate information on the test devices."
