

Proposal for correction to ECE/TRANS/WP.29/2018/105

Proposal for Supplement 20 to the 01 series of amendments to UN Regulation No. 53 (Installation of lighting and light-signalling devices for L3 vehicles)

Submitted by the expert from the International Motorcycle Manufacturers Association

I. Introduction

In 2016, Class B headlamps⁽¹⁾ were deleted from the 02 series of amendments to UN Regulation No. 53 (ECE/TRANS/WP.29/2016/23).

However, Class B headlamps remain in the 01 series of amendments to this Regulation. In ECE/TRANS/WP.29/2018/105, which deals with the 01 series of amendments to UN Regulation No. 53, Class B headlamps were omitted by mistake in paragraph 6.2.1.2. (a). Hence, we request to consider the below correction.

⁽¹⁾ Class B headlamps of UN Regulation No. 113

II. Proposal

Paragraph 6.2.1.2. (a), replace

“Class D or E of UN Regulation No. 113” by

“Class **B**, D or E of UN Regulation No. 113”.
