Item 6 of the provisional agenda

Interpretation

### Interpretation – Addition of UN 3291 in the table in 1.1.3.6.3

#### Transmitted by the Government of Sweden

#### Introduction

UN 3291 has until recently been assigned packing group II. However, in the 2021 edition of ADR (and RID/ADN), the packing group was removed and adjustments were made in 2.2.62.1.11.4, in the dangerous goods list in Table A in Chapter 3.2 and in table 4.1.1.21.6.

UN 3291 is assigned transport category 2 in Column (15) and was until recently therefore covered in the table in 1.1.3.6.3. However, the introductory sentence for transport category 2 in 1.1.3.6.3 reads:

*“Substances belonging to packing group II and not classified in transport categories 0, 1 or 4 and substances and articles of the following classes: ...”*

With the deletion of the packing group for UN 3291, this sentence in the table does no longer cover this entry. To clarify the situation and to follow the procedure for other UN numbers specifically listed, it would seem appropriate to add “UN 3291” in the line for Transport category 2 in 1.1.3.6.3.

#### Question

Sweden believes that the following text under transport category 2 in table 1.1.3.6.3 should be added (new text in bold and underlined):

2	<p>Substances belonging to packing group II and not classified in transport categories 0, 1 or 4 and substances and articles of the following classes:</p> <p>Class 1: 1.4B to 1.4G and 1.6N</p> <p>Class 2: group F aerosols: group F chemicals under pressure: UN No. 3501</p> <p>Class 4.1: UN Nos. 3225 to 3230, 3531 and 3532</p> <p>Class 4.3: UN Nos. 3292</p> <p>Class 5.1: UN Nos. 3356</p> <p>Class 5.2: UN Nos. 3105 to 3110</p> <p>Class 6.1: UN Nos. 1700, 2016 and 2017 and substances belonging to packing group III</p> <p><b><u>Class 6.2: UN 3291</u></b></p> <p>Class 9: UN No. 3090, 3091, 3245, 3480 and 3481</p>	33 3
