Working Party on the Transport of Dangerous Goods**

Bern, 16-20 March 2020

Item 5 (b) of the provisional agenda

**Proposals for amendments to RID/ADR/ADN:
new proposals****Proposal of amendment to Chapter 1.2 of RID/ADR****Transmitted by the Government of Portugal^{*,**}***Summary*

Executive summary: It is proposed that section 1.2.1 be purged from the decoding of all abbreviations and acronyms, which will be contained in a new section 1.2.3.

Action to be taken: To create a new section 1.2.3 in Chapter 1.2.

Introduction

1. Section 1.2.1 of RID and ADR contains the definition of all technical terms used throughout the regulations, and does so in a clear and concise manner, which is of great advantage to users.
2. On the other hand, section 1.2.1 also includes the meaning of numerous acronyms, which is also very useful but does not provide real definitions and unnecessarily complicates consultation of the true definitions.

Proposal

3. It is proposed that section 1.2.1 be purged from the decoding of all abbreviations and acronyms, which will be contained in a new section 1.2.3 to be created. The electronic addresses of the international organizations are also added.

* In accordance with the programme of work of the Inland Transport Committee for 2018-2019, (ECE/TRANS/WP.15/237, annex V, (9.2)).

** Circulated by the Intergovernmental Organisation for International Carriage by Rail (OTIF) under the symbol OTIF/RID/RC/2020/13.

4. The same solution has been adopted in the equivalent texts of the IMDG Code, with widespread acceptance, bearing in mind that the IMDG is the most widely used modal regulations for carriage of dangerous goods.
5. The list of amendments to Chapter 1.2 is shown in the annex. The full text of Chapter 1.2 where new text is underlined, and deleted text is ~~crossed-out~~ is contained in INF.5.
6. A similar amendment may be seen in the ADN Agreement.
7. The present proposal took into consideration the comments and suggestions made at the RID/ADR/ADN Joint Meeting during its Autumn 2019 session concerning the previous Portuguese proposal on this subject (ECE/TRANS/ /WP.15/AC.1/2019/27).

Justification

8. These amendments are intended to introduce greater clarity and user-friendliness to the current section 1.2.1 of the Regulations, so that this text contains only definitions of the concepts and technical terms used throughout the ADR and RID, making it a true glossary, as it is understood to be its vocation.

Difficulties

9. No difficulties with the application of the amendment are expected.
