Economic Commission for Europe

Inland Transport Committee

Working Party on Inland Water Transport

Working Party on the Standardization of Technical and Safety Requirements in Inland Navigation

Fifty-seventh session

Geneva, 24–26 June 2020

Item 4 (c) of the provisional agenda

Standardization of technical and safety requirements in inland navigation:

Prevention of pollution of inland waterways by vessels (resolution No. 21, revised)

Revision of the list of reception facilities for transfer of waste from vessels

**Transmitted by the Governments of Croatia, Czechia, Hungary,
Lithuania, Romania, Serbia, Slovakia, the Danube Commission and the
International Sava River Basin Commission***

Mandate

1. This document is submitted in line with the programme of work of the Transport subprogramme for 2020 (ECE/TRANS/2020/21, chapter IV, table, section A, para. 11) adopted by the Inland Transport Committee at its eighty-second session (ECE/TRANS/294, para. 136).
2. At its fifty-sixth session, the Working Party on the Standardization of Technical and Safety Requirements in Inland Navigation (SC.3/WP.3) decided to continue updating of the appendix to resolution No. 21 “Reception facilities for the transfer of waste generated on board ships on European inland waterways” and invited member States to transmit the updated information on reception facilities to the secretariat for its next session, if they had not done so (ECE/TRANS/SC.3/WP.3/112, paras. 56–58).
3. The annex to this document contains the updated information to the list of reception facilities for transfer of waste generated from the operation of vessels, transmitted to the secretariat by the Governments of Croatia, Czechia, Hungary, Lithuania, Romania, Serbia, Slovakia, the Danube Commission and the International Sava River Basin Commission.

* The present document was submitted after the deadline in order to reflect the most recent information.
