

## Proposal for amendments to ECE/TRANS/WP.29/GRBP/2020/14

The changes compared to document ECE/TRANS/WP.29/GRBP/2020/14 are marked in red.

### I. Proposal

*Paragraph 2.5.3.*, delete the reference to footnote 1 **and amend to read:**

2.5.3. "Radial" **or "radial-ply"** describes a tyre structure in which the ply cords extend to the beads and are laid substantially at 90° to the centreline of the tread, the carcass being stabilized by an essentially inextensible circumferential belt.<sup>+</sup>

*Footnote 1*, delete:

<sup>+</sup> ~~Applicable also to Regulation No. 54~~

*Insert a new paragraph ~~2.38.39~~* to read:

**"~~2.38.39~~. "Service description" means the association of the load index with a speed category symbol (for example, 72H);"**

### II. Justification

1. Wording of "radial-ply" was introduced in paragraphs 2.20.3.3. and already used in former 3.1.4.3., newly renumbered as 3.1.4.2. without being specified in the definitions.
2. Correction of a wrong proposed renumbering.
