

**Proposal for Supplements to the new UN Regulation No. [148] and to the 06 and [07] series of amendments to UN Regulation No. 48 in document ECE-TRANS-WP29-GRE-2019-22 (“sun load impact”)**

In the Report of GRE – 82 under paragraph 18 is stated that GRE invited the expert from Germany, in cooperation with Japan, CLEPA and OICA, to complement the document with transitional provisions and research justification.

Due to the current Situation it was not possible to start this discussion.

Therefore the experts of Germany request kindly the experts from Japan, United Kingdom, CLEPA and OICA to contact Germany to schedule an appointment for a WebEx meeting. The goal is to prepare a formal document for GRE-84
