The support leg installation assessment volume is characterized as follows (see also Annex 17, Appendix 2, Figures 8 and 9 of this Regulation):

(a) Lateral limitation:

By two planes parallel to and 100 mm apart from the median longitudinal plane of the child restraint fixture installed in the respective seating position; and

(b) Forward limitation:

By a plane perpendicular to the plane given by the child restraint fixture bottom surface and perpendicular to the median longitudinal plane of the child restraint fixture, 695 mm apart from the plane passing through the centerlines of the ISOFIX lower anchorages and being perpendicular to the CRF bottom surface; and

(c) Rearward limitation:
