EXPLANATORY NOTES

The new Hellenic ADR driver training certificate complies with the requirements of 8.2.2.8.3. of ADR.

In particular, each ADR certificate contains or incorporates security characteristics, that is :

- wavy guilloche lines, colored blue, in both sides
- graphic presentation of a decorative used in Greece (acroteramo) together with an ancient column of ionic rhythm, in the front side
- graphic presentation of a decorative used in Greece (acroteramo) together with an amphora, in the back side
- micro printing in black capital letters, under the heading blue capital letters, in both sides
- card serial number, with five digits, in the back side
- characteristic hot stamped hologram, in the back side, presenting an ADR truck, moving from left to right.
- protective transparent film, in both sides

The colored driver's photo, the signature and the data of the driver, are printed with a color ribbons' printing machine.
