

## Discover the RFSC: a tool to plan, deliver on and monitor sustainable development at local level

Side event: 15 March | 9.00-10.30 (CET)  
(Event organised on Zoom : accessible through this [link](#))

### Why?

This session will allow you to get acquainted with the Reference Framework for Sustainable Cities (RFSC), an online self-assessment tool promoting integrated sustainable urban development for cities. It supports towns and cities to delivery the 2030 Agenda for Sustainable Development.

### For whom?

Representatives of local governments, entities including ministries responsible for sustainability and urban development, urban stakeholders, from the European continent and beyond, and relevant UN entities.

### Agenda
