

European Union Water Initiative Plus for the Eastern Partnership Countries (EUWI+)

REPUBLIC OF MOLDOVA

6th meeting of the National Policy Dialogue on Water

- 19 November 2020, virtual meeting, 09:00 – 12.00 CET

10.00-13.00 Local Time (MD)

Draft agenda

Objectives

The meeting will focus on discussing recent progress in modernising national water policy, extending access to water supply and sanitation, as well as enhancing transboundary cooperation. As the EUWI+ programme will soon be completing its implementation, this National Policy Dialogue meeting offers an opportunity to address remaining tasks in conjunction with the priorities and activities of the country-specific work programme, as well as discuss next steps towards ensuring sustainability of results and reflect on further needs and priorities in the water sector beyond 2020.

Proposed date, format and timing

Thursday, 19 November, virtual meeting on ZOOM platform, 09:00-12:00 CET

Working languages: English and Romanian, with simultaneous interpretation

Background

The Republic of Moldova signed an Association Agreement with the European Union in 2014 and is committed to harmonise its water legislation with the EU *water acquis*. EUWI+ supports Moldova in its journey towards sustainable water management including through technical, financial and capacity building support. The Republic of Moldova is aligning its water sector with the best international practices in order to attract further investments in the water sector, this includes approximation towards ground breaking EU methodologies such as the Water Framework Directive which are aimed at protecting people's health and the natural environment. Sharing its river basins with Romania, an EU-member state, and Ukraine, transboundary cooperation plays a key role. Over the past 4 years, EUWI+ has supported a combination of policy reform and capacity development at both the national and basin scale, with activities tailored to ensure sustainability of the results.
