

## Boğaç Şimşir

2020 Global Compact Turkey SDG Pioneer,  
Innovation Director, Eczacıbaşı Building Products (Turkey)

Born in 1970, Boğaç Şimşir graduated from Istanbul Technical University as a Mechanical Engineer in 1992 and completed his graduate studies in Economics at University of South Florida in 1994. In 1995, he started his professional career as a Product Development Engineer at GM Delphi. In 1996, he joined Hyundai Motor Company as Assembly Plant Production Supervisor, and in 1998, Ford Motor Company as Body Engineering Supervisor. After five years at Ford, Şimşir joined Arçelik as R&D Specialist, where he remained until 2006, and then he became Founding Partner and Chief Engineer at “maybe design” till 2013. As the co-founder and acting Chief Engineer in his most recent post in “BOxER Design & Strategy”, Boğaç Şimşir currently holds the position of Innovation Director at Eczacıbaşı Building Products Division since February 2014.
