Eighty-fourth session

Geneva, 26-30 April 2021

Item 7 (b) of the provisional agenda

Other UN Regulations:

UN Regulation No. 149 (Road illumination devices)

Proposal for Supplement [4] to the original series of amendments to UN Regulation No. 149

Submitted by the expert from the International Automotive Lighting and Light Signalling Expert Group (GTB)*

The text reproduced below was prepared by the expert from GTB with the aim to insert missing text in UN Regulation No. 149. The modifications to the existing text of the Regulation are marked in bold for new or strikethrough for deleted characters.

* In accordance with the programme of work of the Inland Transport Committee for 2021 as outlined in proposed programme budget for 2021 (A/75/6 (Sect.20), para 20.51), the World Forum will develop, harmonize and update UN Regulations in order to enhance the performance of vehicles. The present document is submitted in conformity with that mandate.

I. Proposal

Add a new paragraph 3.2.5. to read:

“3.2.5. In case of cornering lamps:

When two or more lamps are part of the same assembly of grouped, combined or reciprocally incorporated lamps, approval is granted only if each of these lamps satisfies the requirements of this Regulation or of another Regulation. Lamps not satisfying any one of those Regulations shall not be part of such an assembly of grouped, combined or reciprocally incorporated lamps.”

II. Justification

1. The provisions in the new paragraph 3.2.5. are contained in UN Regulation No. 119, paragraph 4.4., but were omitted during Stage 1 of the simplification process.
2. For this reason, the missing paragraph on cornering lamps shall be inserted into UN Regulation No. 149 in order to re-align the text with the frozen UN Regulation No. 119.
