

eTIR Proof of Concept

E. CIAPPARA & G. MESZAROS

09 February 2021

eTIR - Annex 11

- *Annex 11 of TIR Convention related to implementation of TIR in electronic format – eTIR*
- *Annex 11 adopted in **February 2020** at UNECE*
- *Invitation by UNECE to TIR Countries to interconnect with eTIR International System for pilot projects*
- *eTIR International System is NOT operational yet*

EU-UNECE Collaboration

- *eTIR International System has to be used by MS in EU*
- *A Business Case is being compiled for the approval of the project to implement eTIR in EU (MASP-C Project)*
- *Since interconnection with UNECE's eTIR International System is required, there is a need to analyse possible options*
- *NCTS identified as possible IT System to handle interaction with eTIR International System*
- *Proof of Concept (PoC) exercise initiated with UNECE to evaluate the possibility of interaction between NCTS and eTIR International System*

Proof of Concept (PoC) Exercise

- *First meeting in June 2020 and now meeting on weekly basis*
- *UNECE*
- *European Commission (DG Taxation & Customs Union-TAXUD)*
(Units in charge of Legal and procedural aspects, Business Processes, NCTS development and operations)
- *EU Member States*
(BE, DE, DK, FR, IT, LU)

Current Status

- *Analysed how NCTS and eTIR International System handle the messages exchange at various stages of the TIR flows*
- *Considered changes required in the current messages of both IT Systems*
- *New messages are identified in both IT Systems*
- *Compiling PoC report to be included in eTIR Business Case document*

Way Forward

- *Complete the Proof of Concept*
- *Acceptance of the eTIR BC by the competent group of Member States (Electronic Customs Co-ordination Group - ECCG)*
- *Move eTIR under the NCTS project – phase/release to be defined*
- *Follow the EU IT project life cycle*

Thank You!
