2. Implementation of the United Nations Economic Commission for Europe Strategy for Education for Sustainable Development

(a) Fourth evaluation report of the United Nations Economic Commission for Europe Strategy for Education for Sustainable Development

Timing: Monday, 10 May, 10.10–10.20 a.m.

2. The Steering Committee will be reminded that the summary outcomes of the fourth mandatory reporting cycle, carried out at the end of the fourth phase of implementation (2017–2019) of the ECE Strategy for ESD (ECE/CEP/AC.13/2021/3), were presented at the virtual consultation meeting (7 May 2020) and the fifteenth meeting of the Steering Committee (Geneva, 19 and 20 October 2020).

3. During the October meeting, the Committee considered both the progress made and the remaining challenges as presented in the national implementation reports and discussed the implications of the findings from the fourth reporting round for the implementation of activities beyond the fourth phase of implementation. The Committee decided that the decision on the report would be made during the additional 2-hour online session to be held on 6 November 2020.

4. Documentation

(b) Progress in implementing the Strategy

Timing: Monday, 10 May, 10.20–11 a.m.

6. The Chair of the Steering Committee will provide a brief summary of the objectives and the priority action areas of the draft concept note for the post-2019 implementation framework (to be discussed under agenda item 5), which will be submitted to the present meeting as a pre-final draft.

7. To facilitate tracking progress in implementation of the Strategy since the submission of the national implementation reports for the fourth mandatory reporting cycle carried out in 2018, a questionnaire (information paper No. 1) will be sent to countries prior to the sixteenth meeting. Countries will be invited to return the completed questionnaires, which will serve as informal reports on implementation, to the secretariat by no later than 15 April 2021.

8. At the meeting, the secretariat will provide a brief synopsis of the progress made and the experiences of ECE member States in the implementation of the Strategy based on an analysis of the informal questionnaires submitted by countries.

9. In the questionnaire, particular attention will be paid to: (a) the priority action areas of the newly drafted concept note for the post-2019 implementation framework (quality education and ESD; whole institution approach and ESD; digital education, information

and communications technology and ESD; entrepreneurship, employability, innovation and ESD); (b) the impacts of the coronavirus disease (COVID-19) pandemic on ESD implementation; and (c) ESD as a vehicle for creating more resilient schools and societies.

10. Countries will be invited to complement the secretariat's presentation with interventions on outstanding activities and initiatives implemented since the fourteenth Steering Committee meeting (Geneva, 2 and 3 May 2019), in particular with regard to how the implementation of national strategies for ESD contributes to the new developments and challenges for ESD in the region. Given the limited time available, countries will only have up to three minutes each for interventions from the floor.

- (c) **Regional framework of cooperation for sustainable development: participation in the 2021 Regional Forum on Sustainable Development and outcomes of the side event organized by the United Nations Economic Commission for Europe Steering Committee on Education for Sustainable Development in the framework of the Forum**

- (d) **Outcomes of capacity-building activities**

Timing: Monday, 10 May, 11.10–11.20 a.m.

12. The secretariat, together with the national focal point of Azerbaijan and the experts involved, will update participants on the results of a Swiss-funded capacity-building workshop, to be held online on 21 and 22 April 2021 in Baku, and on the promotion of ESD at the national level.

Timing: Monday, 10 May, 11.20–11.40 a.m.

13. The secretariat will report to the Steering Committee on contributions received since the Committee's previous meeting, on the basis of an informal note (information paper No. 3) to be submitted for the Committee's consideration at the meeting. Since the funding situation of the Strategy for ESD is always very tight, and the regional activities are funded exclusively through contributions by member States to the trust fund, advance indications of pledges by States are vital.

14. The Chair of the Steering Committee will invite the members of the Committee and national focal points to consider the funding situation regarding the Strategy's activities over the previous few years, with a view to examining alternative ways of addressing the matter, such as participation in external projects with European Union partners and/or other relevant international development agencies and in-kind contributions to various programme activities.

15. The Steering Committee will be invited to discuss the focus of capacity-building activities for the next decade and to identify priority areas of capacity-building activities arising from the newly drafted concept note for the post-2019 implementation framework. In that regard, countries will be invited to consider their interest in organizing and hosting capacity-building workshops or other relevant activities.

16. During the discussion, the Steering Committee will be expected to look for ways to mobilize additional funds for capacity-building activities at the national and subregional levels.
