

Road Map on Statistics for SDGs 2.0

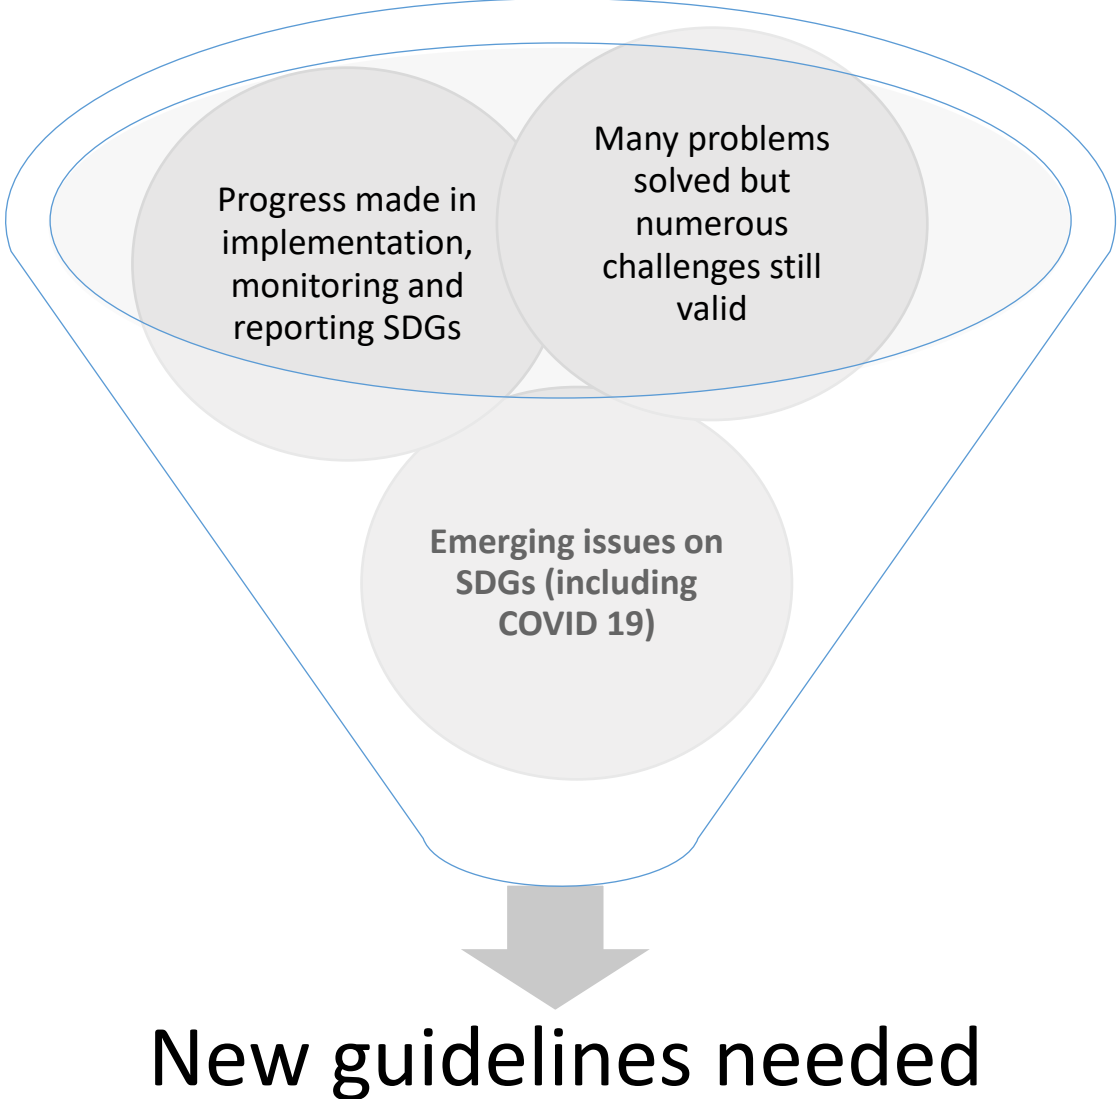

Renata Bielak

Statistics Poland, co-chair of CES Steering Group on SDGs

Expert Meeting, 29 March 2021

Why Road Map 2.0?

Road Map 2.0 - general assumptions

Main goals

- clarify and communicate role of statistics and NSOs in SDGs implementation
- explain complexities of reporting SDG indicators
- support countries in developing statistical capacity for SDG
- assist NSOs in effective communicating of SDG statistics

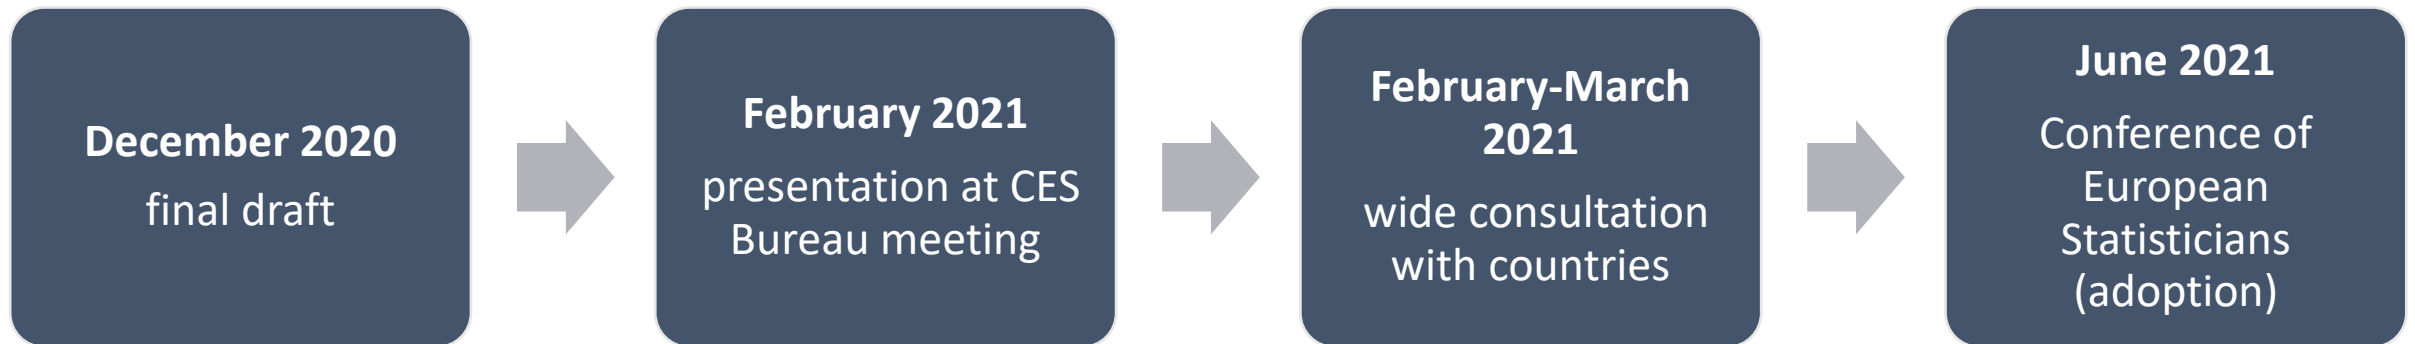

Approach

- bring together experience of various stakeholders, from global to sub-national level
- refer to works of different groups, including IAEG-SDG
- include many country case studies to illustrate practical examples

Road Map 2.0 – work process

- Prepared by [CES Steering Group on Statistics for SDGs](#) and experts from countries that are not members of the SG
- Almost 40 people from over 20 countries and International Organizations
Albania, Armenia, Austria, Canada, Denmark, France, Germany, Ireland, Israel, Italy, Kyrgyzstan, Montenegro, Netherlands, Poland, Portugal, Russian Federation, Spain, Sweden, Switzerland, Turkey, UK, USA, CISSTAT, Eurostat, OECD, UNECE
- Timeline:

Contents of the Road Map 2.0

K E Y M E S S A G E S

CHAPTERS
