GLOBAL
CENTER ON
ADAPTATION

- Facilitate focused and active exchanges of knowledge, ideas, good practices, and inspiration
- Facilitate connection between the water and climate dialogues and the water subsectors
- A dedicated and proactive facilitator
- An online platform
- Connected groups, CoPs and networks

The screenshot displays the 'Water Adaptation Community' page on the 'STATE OF TRENDS IN ADAPTATION KNOWLEDGE EXCHANGE' website. The page features a dark navigation bar with a home icon, a globe icon, and buttons for 'COMMUNITIES', 'ALL TAGS', 'LATEST TOP', 'SIGN UP', and 'LOG IN'. Below the navigation bar, the page title 'Water Adaptation Community' is followed by a brief introductory text. The main content area is a grid of community cards, each with a representative image and a title: 'Engineering with Nature' (Nature-Based Solutions from pilots to landscapes?), 'Resilient Cities' (Integrated solutions, considering climate risks, and opportunities?), and 'Water adaptation voices' (Watch and listen to water adaptation views from around the globe.). Each card includes an 'ENTER' button with a right-pointing arrow. A vertical sidebar on the left contains icons for home, globe, a blue circle with a white icon, and a network icon.
