

Working Group on Environmental Monitoring and Assessment

Twenty-third session, Geneva and online, 4-5 May 2021

Agenda Item 7: Sharing & integration of economic, social & environmental data with regard to the implementation of the 2030 Agenda for Sustainable Development

**Overview of feedback received from member
States and recent developments**

Overview of feedback received from member States and recent developments

Due to time limitations, members of the Working Group were invited during its last session on 27 October 2020 to submit proposals in written form to the Secretariat by 15 November 2020 on following questions:

- How could the work on environmental information, data, indicators including green growth indicators of international partners (OECD, UNEP, etc.) and national reports on green growth support the development of the pan-European environmental assessment, including for the selected themes of the next Environment for Europe Ministerial Conference?
- How could the Working Group continue its work on integrating economic, social and environmental data into the Shared Environmental Information System, including beyond 2021?
- Please specify the topics you wish to consider for the next session of the Working Group.

No responses were provided by member States by 15 November 2020 or later

Thank you!

Question:

How can the work on environmental information, data and indicators, including related to a green and circular economy, better support:

- development of the pan-European environmental assessment(s)
- other activities related to the Working Group?

Question:

What are relevant topics for the 24th session of the Working Group?

Sharing & integration of economic, social & environmental data

Proposed Conclusion:

The Working Group:

- a) Takes note of the suggestions related to how the work on environmental information, data and indicators can better support the development of the pan-European environmental assessment(s) and other activities related to the Working Group
- b) Takes note of the suggestions on topics for the 24th session of the Working Group
